...srael Declares ...S. Policy Mars ...hances of Peace

By James Feron

...USALEM, Dec. 11 (NYT).—The government of Israel last night ...erized Secretary of State William P. Rogers's statement calling ...eli withdrawal from occupied territories as likely to mar the ...ts for peace in the Middle East. Mr. Rogers said the with- ... should be in return for a binding peace agreement by the ...

... a special statement issued after a late night cabinet session, ...eli government said "negotiations for peace must be free from prior conditions and external influences and pressures."

Referring specifically to Mr. Rogers's address last night, the cabinet statement read:

"The prospects for peace will be seriously marred if states outside the region continue to raise territorial proposals and suggestions on subjects that cannot promote peace and security."

Premier Golda Meir convened the special cabinet session to consider Israel's position in the wake of Mr. Rogers's decision to make public the proposals he had been discussing privately.

Eban to Visit U.S.

The disclosure came on the eve of Foreign Minister Abba Eban's departure for the United States where he will discuss these matters with Mr. Rogers and other officials.

Reflecting the annoyance caused by Mr. Rogers's unexpected announcement, the cabinet statement reviewed Israel's position without touching on specific points raised by the secretary of state.

It said the tensions referred to by Mr. Rogers "derive from the aggressive policies of the Arab government." The only way to end the state of war, the statement read, is with a "directly negotiated peace treaty."

The statement also noted that Mr. Rogers said "States outside the region cannot fix peace terms." These terms, Mr. Rogers was quoted as saying, "can be established only by agreement among the parties concerned."

Jerusalem Topic

But Mr. Rogers's observation, the cabinet statement said, did not tally with his speech which the cabinet said includes "peace terms and other basic questions, among them the status of Jerusalem."

It was on the subject of Jerusalem that the first and most direct Israeli response to Mr. Rogers's speech was made earlier in the day by Deputy Premier Yigal Allon.

Speaking in Israel's parliament, Mr. Allon declared that all of East Jerusalem, the former Jordanian sector, was being opened to Jewish settlement.

Defending the government against charges of being slow about development in East Jerusalem, Mr. Allon listed several projects planned or being built for thousands of Jewish families.

He said that Israeli and Jerusalem authorities would assist "any Jew who wants to buy or rent real estate either privately or through institutions."

"No part of East Jerusalem, and certainly no part of the Old City, is closed to Jewish settlement," he said.

He reaffirmed Israel's intention never to give up control of the unified city. Recalling that Jerusalem was divided when Jordan, in violation of a United Nations

...Syrian version, as reported ...Damascus Radio, was that ... of Israeli jets launched ...attacks against militar tar- ...d airstrips in the vicinity ...capital.

...Syrians admitted losing ...lanes but said their pilots ...wn two Israeli jets. Israeli ... said all their planes re- ...safely.

...igh Israeli Army officials ... tonight that any ground ... had been attacked, many ... considered the air action ...awaited reprisal.

Defense Minister Moshe Dayan, who left this morning for a one-day fund-raising trip to London, had warned last weekend, after the release of two Israelis hijacked to Damascus last August that "we have a score to settle with Syria."

But Israeli military analysts dismissed this today and said the actions had been initiated by Syria to attract attention to Syria prior to the upcoming Arab summit conference in Rabat.

The likelihood of a major clash had increased this week when Syrian tanks opened fire on two occasions against Israeli bulldozers building a patrol road along the Golan cease-fire line.

Today's activity raised to 14 the reported toll of Syrian jets lost in air battles since the end of the 1967 war. The Israelis say they have lost no planes on the northern front.

According to information available here, the Syrian Air Force consists of about 150 planes, including 55 or 60 MiG-21s, the top interceptors, and 70 of the lesser MiG-17s. The Syrians also have two dozen or so of the slower Sukhoi-7 fighter-bombers and a variety of transports and helicopters.

Israeli jets also made a two-and-a-half-hour strike against Egyptian military targets near the Suez Canal.

Repeats He Gave No Orders

Medina Concedes Massacre 'Could Have Taken Place'

By Robert M. Smith

WASHINGTON, Dec. 11 (NYT).—Capt. Ernest L. Medina, commander of the Army company involved in the alleged massacre of Vietnamese civilians at My Lai, said Tuesday that such a massacre "could have taken place."

The captain, in a 90-minute interview with reporters for The New York Times, also said that he would conduct the My Lai operation differently if he had it to do over again.

"It is possible that it could have taken place," the captain said when he was asked about the alleged killings in March, 1968. But he repeated his earlier statements: "I did not see any massacre take place, and I did not order any massacre."

When he was asked whether he would use a different procedure if he were directing the operation again, he said:

After the Game

"If anything has come out in accusations and allegations and everything else, it is just like a football game, a Monday morning quarterback after the football game on Sunday.

"You can sit down and say we should have done this. We should have run that play. We could have gone for the touchdown, and we could have won the game. And for this reason I can answer your question 'yes'.

"Even if I had the same intelligence reports, that the 48th VC [Viet Cong] Battalion would be in that village, that the civilians would be out of that village at 7 o'clock, gone to market, and if I had any reason whatsoever to believe that there would be any woman or any child or any innocent noncombatant in that village, that there would be—you know, we would take extra precautionary steps such as leaflet drops in the area, loudspeaker broadcasts at the same time that the combat patrol is coming in, warning the people not to move, not to run, to assemble in a particular area, insuring that each individual soldier knew and understood specifically that they would not engage or shoot a nonarmed civilian."

He was asked if any of these precautions had been taken before the attack on My Lai.

"I do not know," he replied. "I can't say that they weren't done or that they were done. I know that these things are periodically done throughout the entire country of South Vietnam."

Signs of Strain

The chunky, dark-haired captain showed *signs of tension and strain* as he sat on a sofa in a suite of the Capitol Arms Hotel and answered the questions. His responses were controlled and immediate, but it was apparent as he sat back, with tunic undone and legs crossed, that he was a very tired man.

He had waited all morning Tuesday to appear before an investigating panel of the House Armed Services Committee but had not been called. He had been ordered to report to the Pentagon in the early afternoon, only to be told that he was to reappear in the committee room the next morning.

Capt. Medina was commander of Company C, First Battalion, 20th Infantry, 11th Infantry Brigade, last year when, as an element of Task Force Barker, the company was ordered to enter My Lai. The Army is investigating whether, as alleged, the men of his company killed a large number of civilians in the village.

A court-martial has been ordered for one platoon leader in the company, 1st Lt. William L. Calley jr., of Miami, who has been charged with the premeditated murder of 109 civilians.

The Army has brought charges of assault with intent to murder 30 Vietnamese civilians against Staff Sgt. David Mitchell of St. Francisville, La., who was in Lt. Calley's platoon. However, no decision has been made on whether

AP.

Capt. Ernest Medina

Sgt. Mitchell will be court-martialed.

In addition, the Army has said it is interviewing scores of other persons, both soldiers and former servicemen, to determine whether a massacre took place, and it has said that 24 other persons are being investigated in connection with the incident.

Capt. Medina has not been charged with any crime and the Army has refused to say whether he is among those under investigation.

Present in the hotel room with Capt. Medina during the interview Tuesday were the captain's military attorney, Capt. Edwin J. Richards, Gerald Aich, an associate of F. Lee Bailey, the captain's civilian attorney, and Wayne Smith, who said he was acting as public relations

Hanoi Aide Boycotts Paris Talks

U.S. Hit for Not Replacing Lodge

By Jonathan C. Randal

PARIS, Dec. 11 (WP).—The chief Hanoi negotiator today boycotted the Vietnam peace conference to protest the "sabotage" and "downgrading" of the talks allegedly implicit in President Nixon's failure to name a full-fledged ambassadorial replacement for Henry Cabot Lodge.

North Vietnamese Col. Ha Van Lau, sitting in for Ambassador Xuan Thuy, left open the possibility that his superior might not return to the deadlocked negotiations unless a new American ambassador was appointed.

Stephen Ledogar, the U.S. press spokesman, declined to comment on Mr. Thuy's boycott, but rejected "the Hanoi delegation's allegations about motivations."

Caught in the middle was Philip C. Habib, the acting American delegation chief, who assured the Communists that the United States "is willing to discuss anything that is brought up seriously by your side" despite his own less exalted personal rank.

In a wide-ranging barrage, Col. Lau charged that President Nixon was "trying to freeze" the talks by pushing ahead with the Vietnamization program of reducing the U.S. military presence—rather than negotiating a settlement here.

Symptomatic of the present tone of the talks was a Hanoi spokesman's disdainful description of Mr. Habib as the "representative of not elevated rank of the American administration."

A Saigon spokesman quoted Col. Lau as having told the 46th conference session, "I want to affirm that there can be no reciprocity."

While the context of the alleged remark remained vague, the Saigon spokesman wondered why the Communists "bothered to come to Paris if they are not seeking a compromise negotiated solution of the war."

Habib in Middle

Mrs. Nguyen Thi Binh, for the Viet Cong, charged that President Nixon's Monday news conference had "unmasked American designs to prolong and intensify the war of aggression under the cover of so-called Vietnamization and to minimize and sabotage the Paris conference."

Nguyen Thanh Le, the Hanoi press spokesman, said the purpose of Mr. Nixon's press conference was simply "concretizing" the Nov. 3 speech, itself "the most reactionary and warlike speech Nixon has ever pronounced on the Vietnam problem."

While denouncing as "warlike and arrogant" the President's refusal to replace Mr. Lodge, Mr. Le also said the Monday news conference "proves that the United States is nourishing designs of extending the war to all of Indochina." This was an apparent allusion to Mr. Nixon's mention of U.S. air activity in Laos.

In the press briefings, which have

But Congressmen Dispute Chairman

Rivers Says Helicopter Pilot Gave No Evidence of Massacre

By George C. Wilson and Richard Homan

WASHINGTON, Dec. 11 (WP).—What an Army helicopter pilot said he saw while hovering 20 feet *over My Lai was not enough to* convince House Armed Services Committee Chairman L. Mendel Rivers, D., S.C., yesterday that a massacre occurred at the Vietnamese hamlet on March 16, 1968.

But other members of a House Armed Services subcommittee, who also heard Chief Warrant Officer Hugh Thompson, emerged from the closed session marveling at the strength of the pilot's testimony. Rep. Rivers told reporters outside the committee room that Warrant Officer Thompson "gave us no information to lead us to believe that anyone committed a massacre at My Lai."

Rep. Rivers's statement astounded several other subcommittee members, who were forbidden by the subcommittee's rules to talk to the press about what they had heard. "I don't know how he could say that," said one member.

Rep. Rivers, asked for clarification last night, said he did not mean to rule out the possibility of a massacre at My Lai. He said that the Army obviously had reason to charge 1st Lt. William L. Calley jr. with murdering 109 civilians. But, the chairman said, the case has not yet been made before his committee.

"We haven't found anybody whose testimony would convict anybody of anything." Rep. Rivers said in elaborating on his earlier statement.

"We don't have anything to tell anybody," he said. "We're looking to see whether our committee should go into this thing. We haven't found any evidence of a massacre. But we haven't gotten as far along as the Army has. We're perfectly wide open. I'm being fair-minded."

Rep. Rivers agreed with his colleagues that Warrant Officer Thompson had made an impressive witness. The helicopter pilot, as one member put it, "was a smart country boy who made sure to

President Nixon and Mr. Johnson at the White House.

Johnson Visits White House For Breakfast With Nixon

WASHINGTON, Dec. 11 (UPI).—Former President Lyndon B. Johnson made his first return visit to the White House today since leaving office, and spent two hours at breakfast with President Nixon.

The former chief executive, in the East for a Washington wedding Saturday afternoon and New York conferences with his publishers, seemed almost reluctant to join in what once would have been a setting tailored to his taste—crowds on the North Portico of the White House.

Mr. Nixon's press secretary, Ron Ziegler, said the two-hour meeting centered primarily on foreign policy, including Vietnam, but included some conversation on the problems of putting together a domestic budget.

Mr. Ziegler said Mr. Nixon "feels it's important for the President to maintain good contact with former presidents."

Extols Manual Arts

Agnew Criticizes Emphasis On Higher Education in U.S.

By John Hanrahan

WASHINGTON, Dec. 11 (WP).—Vice-President Spiro T. Agnew last night criticized the nation's emphasis on higher education as the key to success and called for restoring the manual arts "to their rightful place of esteem."

The emphasis on college degrees has helped cause campus unrest and has alienated many young people, Mr. Agnew said, in that it has "prolonged the period of dependency . . . disenfranchised our young adults . . . discriminated against non-college youth, and directed others, in disregard of their desires, into higher education."

Mr. Agnew called for the government, business and academic communities and parents to reorder their thinking to bring about "major academic reform" by deemphasizing the need for a college degree to achieve a good life.

Mr. Agnew prepared his remarks on education for a dinner in Pikesville, Md., before a dinner sponsored by the Theodore S. Agnew Scholarship Fund, named for his father. However, the Vice-President did not deliver the speech but said he stood by its content.

Instead, Mr. Agnew launched an attack on protesters on the college campuses and in the streets. He said street demonstrations are "more appropriate in an autocratic government, in a totalitarian country where people can't express themselves in free elections."

Insults Exchanged

Outside the hotel where he spoke, several hundred demonstrators exchanged insults and obscenities with the formally attired guests arriving for the dinner.

Some were part of the Baltimore Moratorium Committee, protesting the Vietnam war. Others were members of the Maryland Committee for Freedom in Greece, who were protesting the military junta in that country.

Mr. Agnew did not see the demonstrators. When he left, they were gone.

In his prepared speech, Mr. Agnew said that the Nixon administration was "taking a hard look at youth policies."

"The educational community should ask whether encouraging ever-increasing numbers of young people to attend college—when 40 percent already do—benefits the lower half of the intelligence scale," Mr. Agnew said.

"We should question whether society's demand for college at-

Passes 69-22; Veto-Periled Items Retained

By Frank C. Porter

WASHINGTON, Dec. 11 (WP).—The controversial tax reform and relief bill swept through the Senate today, 69 to 22, amid Republican cries of "fiscal irresponsibility" and a Democratic prediction that its large revenue losses will be whittled in House-Senate conference.

When fully implemented, the measure would provide some $11 billion in tax cuts, mostly for low-income and middle-income Americans.

This would be partly offset by about $5.7 billion in increased revenues, through reform mostly borne by business and affluent individuals.

These figures do not include roughly $7 billion in increased Social Security benefits, tacked onto the bill on the Senate floor. In one form or another these are expected to become law regardless of the outcome of the tax legislation.

President Nixon said Monday he would veto the bill if these large benefit rises and an increase from $600 to $800 in the personal income tax exemption were in the bill. Although these provisions stayed in the bill passed today, they could be removed or changed in a Senate-House conference committee.

Gore Amendment in Bill

An amendment by Sen. Albert Gore, D., Tenn., to cut the earned-income exemption of Americans living abroad to $6,000 is part of the bill. However, a Capitol Hill source said he thinks this provision will be struck out of the compromise bill in the Senate-House conference committee. Americans overseas now are entitled to an exemption of from $20,000 to $25,000 on income earned outside the United States.

The bill now goes to a conference committee to iron out differences between the House and Senate versions. Aside from Social Security, which the House is handling as a separate bill, the Senate measure provides about $2 billion more in tax cuts and roughly $1 billion less in tax reform in the long run.

Chairman Russell B. Long, D., La., of the Senate Finance Committee said he hoped the conference committee would meet on Monday.

But Chairman Wilbur D. Mills, D., Ark., of the House Ways and Means Committee, who will head the conferees, had indicated earlier he wanted to meet as soon as the Senate completed action.

Since Mr. Mills has also suggested that the group could finish its work in five days of intensive sessions, this could mean final action by both chambers by the end of next week and a bill on President Nixon's desk before Christmas.

"I think the trend we'll take in conference will be to increase the revenue gain and reduce the revenue loss," Sen. Long said last night.

The sharp revenue imbalance built into the Senate bill through floor amendments was the focus of today's debate.

Generally, Republicans argued that the measure as it stands is a cruel hoax on the average taxpayer. They predicted that the generous tax cuts held out to Americans would be more than eaten up by the inflation the huge revenue deficits would generate.

Democrats generally threw the charge of fiscal irresponsibility back in the Republicans' faces, claiming that GOP members failed to support greater revenue-rais-

(Continued on Page 3. Col. 1)

Kopechne Inquest Is Set for Jan. 5

EDGARTOWN, Mass., Dec. 11 (UPD.—District Court Judge James A. Boyle today set Jan. 5 for the inquest into Mary Jo Kopechne's death in Sen. Edward M. Kennedy's car last July 18.

The judge said the inquest—*closed to press and public—will* start at 10 a.m. The date was set 24 hours after a Pennsylvania judge refused to permit exhumation of Mary Jo's body for an autopsy.

Bonn Decides to Join Move For Suspension of Greece

BONN, Dec. 11 (AP).—The West German government decided to vote for the suspension of Greece from the Council of Europe until the army-backed Greek regime allows a return to democracy.

But the West German cabinet said it wanted to keep Greece a member of the North Atlantic Treaty Organization.

Government spokesman Conrad Ahlers told a news conference there was still time for the Greek regime to take a "demonstrative step" toward liberalization that could avert a break.

The Council of Europe's ministerial committee meets in Paris tomorrow to decide the issue and several demands have been made for Greece to be ousted from the 18-nation organization.

Asked what "demonstrative" act would cause the Bonn government to reconsider today's unanimous decision, Mr. Ahlers said: "There is a whole catalogue of possibilities. For example, the Greek government could release all political prisoners. That would be a demonstrative step toward liberalization."

He said Foreign Minister Walter Scheel would fly to Paris tonight with a mandate to seek a majority in the ministerial committee for unlimited suspension of Greece.

But Chancellor Willy Brandt's cabinet believed this should not be allowed to affect the NATO alliance, of which both West Germany and Greece are members.

"We feel that ideological matters do not belong in military alliances," he said.

Paris Reports of Compromise

PARIS, Dec. 11 (AP).—Reports circulated here today that delegates might be presented with a compromise proposal on the suspension of Greece from the Council of Europe.

Diplomatic sources said the

(Continued on Page 2, Col. 2)

Bonn Won't 'Buy' Political Favor in East

Brandt Discourages Polish Credit Report

BONN, Dec. 11 (AP).—Chancellor Willy Brandt made clear today he is not prepared to "buy" better relations with Poland and other Communist East European states by granting massive credits.

The West German leader, addressing his cabinet, was plainly discouraging reports from Warsaw that the Bonn government has offered Poland a $550 million credit to finance purchases in this country over the next five years.

Quoting the chancellor at a news conference, government spokesman Conrad Ahlers said Mr. Brandt told ministers neither side in Bonn's drive for better relations with the East "can even think of offering or accepting impossible financial services."

Mr. Brandt said Bonn would conduct its newly resumed economic talks with Poland and future contacts with Romania "in the spirit that political differences . . . can be dispelled by strengthening industrialization and improving and increasing trade exchange."

Reports of the $550 million credit —some said it was a German offer, others that it was the sum desired by Poland—came just before delegations of the countries resumed talks here yesterday on exchange of goods in 1970 and West German credits to assist Poland's next five-year economic plan.

Bonn-Moscow Talks Continue

MOSCOW, Dec. 11 (UPI).—West Germany and the Soviet Union today quietly convened their second meeting to discuss a treaty renouncing the use of force in their mutual relations.

The West German Embassy announced that Ambassador Helmut Allardt spent two hours with Foreign Minister Andrei A. Gromyko. Western diplomatic sources said that the two agreed that the talks will continue, but no specific date was set.

In public, the Russians continued to treat the meetings as if they did not happen. Tass, the official news agency, reported neither today's meeting nor the first one on Monday and it did not publish photographs, as it would routinely do for most such meetings.

Nevertheless, West German sources said the talks were "substantive" and they interpreted the Soviet silence as an effort to avoid political difficulties at home for Chancellor Willy Brandt.

Bonn Decides to Join Move For Suspension of Greece

(Continued from Page 1)

Scandinavians — strengthened by West Germany's announcement—were discussing a plan for limiting sanctions against the military regime to temporary suspension while a commission of inquiry investigates on the scene.

This proposal was understood to be aimed at swaying those nations in the 18-member body—particularly France, Ireland and Italy—that feel they could not vote for outright suspension.

A report from Athens indicated, meanwhile, that Greek Foreign Minister Panayiotis Pipinelis would bring promises of liberalization to the floor of the meeting room here tomorrow.

Informal canvasses indicated that West Germany's voice would bring the opposition to the Greek military regime close to the ten votes needed for a majority. Denmark, Sweden, Norway, Iceland, Britain, Holland, Belgium and Luxembourg are understood to be ready to vote for suspension.

But Greece has maintained that two-thirds of the council—or 12 votes—is required to suspend a member. An official ruling on this point has not yet been made. There is no precedent.

The charge against the Athens military regime is violation of the council's charter through disregard of parliamentary democracy and basic human rights.

Meanwhile, a busy series of diplomatic contacts continued in Paris this evening.

George Thompson, Britain's Minister for European Affairs, scheduled a meeting with French Foreign Minister Maurice Schumann. He also planned to see Mr. Pipinelis.

Ministers of the Scandinavian nations, who are backing the suspension proposal, were dining at the Danish Embassy. A spokesman there said he had heard about the compromise plan for temporary suspension but that he could not comment on it.

Senator Delays Confirmation of Envoy to Greece

WASHINGTON, Dec. 11 (NYT).—Sen. Charles E. Goodell delayed Senate confirmation yesterday of the administration's designated ambassador to Greece, pending the outcome of a European meeting this weekend which could end in Greece's expulsion from the Council of Europe.

Attempts to dissuade the New York Republican were made Tuesday night and yesterday by Under Secretary of State Elliot L. Richardson and Stuart W. Rockwell, Deputy Assistant Secretary of State for the bureau handling Greek affairs in the department.

Sen. Goodell made clear in a statement to the Senate that he had no reservations concerning the qualifications of career foreign service officer, Henry J. Tasca.

He said he hoped his action would signal U.S. displeasure with the Greek dictatorship's present practices and encourage more democratic and humane policies.

Aides to the senator said that he had the Senate leadership's consent to delay the confirmation "well into next week," and perhaps longer.

Top French Red Urged To Take Long Rest

PARIS, Dec. 11.—A team of doctors has recommended to French Communist party leader Waldeck Rochet that he begin several months of "convalescense and reduced activity," a party communique said tonight.

Mr. Rochet has undergone two operations this year for kidney and prostate trouble and has drastically cut back his activities. His illness has increased speculation that he will be replaced as secretary-general when the party holds its annual convention in February.

Sergeant Denies He's Guilty of Atrocity Charges

BATON ROUGE, La., Dec. 11 (AP).—Sgt. David Mitchell, charged with 30 counts of assault with intent to murder civilians in the South Vietnamese village of My Lai, has declared he is innocent.

"I deny the charges and I'm not guilty," the Negro soldier from Louisiana said in an interview with a Baton Rouge newspaper and television station at Ft. Hood, Texas.

Sgt. Mitchell told the Morning Advocate and WBRZ that the first time he had knowledge of the investigation was when he was called to Washington to answer questions on the incident.

"After that, I didn't hear anything for a month or two. Then I was ordered to another hearing and that's when things really began to get rough," Sgt. Mitchell said.

The newspaper quoted Pentagon sources as saying a decision may be reached this week on whether Sgt. Mitchell will face court-martial in the alleged massacre of civilians.

Medina Says Massacre Is Conceivable

Could Have Happened, He Says in Interview

(Continued from Page 1)

assistant to the captain and to Mr. Bailey.

Mr. Alch advised the captain in a half-dozen instances not to answer questions put to him. In most cases, the questions involved the captain's views on present or past behavior by other members of Company C.

At one point, the captain was asked why he had refused to speak with the press before a ruling was issued Nov. 25 by Lt. Col. Reid W. Kennedy, a military judge, that potential witnesses not submit to interviews.

"Well, the order had been issued," he said, "and I was in the military."

He was asked who had ordered him not to talk to the press.

'Under Restraint'

"That is in an area where I can't say anything. I was under restraint insofar as not being able to discuss anything," Capt. Medina replied.

He indicated that he had been able to grant this interview because of a "clarification" Capt Richards had obtained from Col. Kennedy, allowing him to speak to the press.

In the interview, the captain recapitulated and added to his earlier accounts of what happened when Company C was put down on the outskirts of My Lai by helicopters.

The day before, he said, he had assembled the whole company in "just one large group" and, as his troops sat in front of him, briefed them on the mission.

Among other things, he said, "I told them that the intelligence reports indicated that the 48th VC Battalion was in the village and the intelligence reports also indicated that there would be no women and children in the village, that they would be gone to market."

When he landed, he said, "my instant impression was that I didn't hear the familiar crackle of rifle bullets zinging over my head . . . I reported the LZ [landing zone] is cold. Immediately thereafter the helicopter pilot broke in and reported, 'Negative, negative, negative, LZ is hot. You are receiving small-arms fire'."

Prisoners Taken

While the captain said that he did not hear or see any fire coming from the village, he reported that his men picked up "three U.S. M-1 carbines and two U.S. M-1 rifles" and took prisoner a number of Viet Cong suspects.

The captain said he remained outside the village with his command group. He said he was linked to the three platoons by radio but could not see them from the command post.

He said he went into the village only once, in order to meet troops on the other side of the village. When he went through, he recalled, "I wasn't looking for anything in particular. They [his men] were burning the village. They were shooting the livestock and closing the wells."

The captain was asked whether he had seen any bodies in the part of the village that he walked through, which he described as the central portion.

Dead Civilians

"Not that I remember," he replied. He said he recalled seeing, and reporting, the bodies of 20 to 28 dead civilians. He believed they were the victims of "artillery fire, fire from the gunship or small arms-fire."

"I did not ask how the people had been killed," he said, "and I did not go over and inspect the individual bodies."

At one point, he said, "I got a radio transmission from higher command stating that there was a possibility that there were civilians in the village and that some of them might have been shot and I was to put out the transmission to all three platoons to try to make sure that none of our people shot any civilians."

After the action was over, Capt. Medina said, he asked his three platoon leaders if any civilians had been killed. "I received negative indications from all platoon leaders," he said.

He said he had also received "a total report from all the platoon leaders, and the total amount of VC that had been killed was turned in as 128."

The captain conceded that after the operation he urged Sgt. Michael A. Bernhardt, then a private, not to write his congressman about the operation at My Lai.

"I called him over," he said, "and I told Bernhardt that I understood that he was going to write his congressman, and I told him he could write his congressman if he wanted to. I recommended that he didn't write his congresman because it would probably just create a big uproar.

"It was something that was being investigated and, since it was being investigated, I recommended that he wait until the investigation was complete."

The captain was asked what he thought Sgt. Bernhardt was going to write his congressman about.

"I don't know," he replied. "I didn't ask him."

He said he had also "made reference to the other members of the company that they should refrain from discussing it amongst themselves or with anybody else until it could properly be investigated."

Capt. Medina recalled that soon after the operation he was told he was under investigation for shooting a woman. He said, as he has before, that he shot the woman, who he said was about five feet from him, when she made a suspicious movement. He has said earlier that he had assumed it was a male Viet Cong.

Associated Press.

CAMPUS SPEAKER—Sen. J. William Fulbright (left) with peace demonstrators near a panel of masacre photos at Washington University, in St. Louis, where he spoke.

Rivers Tells Of Hearing

(Continued from Page 7)

tell us what he saw—not what he heard."

According to several sources, this was the pilot's story:

He was flying in a small, bubble-nosed command helicopter at tree-top level observing the troop movements on the ground. Two larger helicopter gunships were protecting him.

While circling the area at an altitude of about 20 feet, he noticed several bodies close together on the ground. He could tell there were women and children among them and few young men of soldiering age. He saw no weapons by the bodies.

Warrant Officer Thompson did not see any group of people being shot, just their bodies later. But he did see an American soldier shoot a woman, he said.

Warrant Officer Thompson reported what he saw to higher authority. His report triggered an abortive Army investigation in the field.

Why Maj. Gen. Samuel Koster, then commander of the Americal Division, did not report the results of the field investigation to his superiors in Saigon and Washington is one of the questions being probed by a group headed by Lt. Gen. William R. Peers. A Defense Department directive in force then and now requires any reports of civilian killings or atrocities to be passed on up the line.

The chief civilian member of Gen. Peers's panel pledged yesterday that the inquiry would not end in a "whitewash."

Robert MacCrate, a member of a New York law firm, also said the inquiry has been broadened to include a detailed investigation of the incident itself and a thorough review of the Army's procedures for reporting such incidents through its chain of command.

Although Army Secretary Stanley R. Resor originally gave the panel the narrow directive of determining the adequacy of the Army's reporting of the original incident, Mr. MacCrate said the scope has been expanded.

"We have to go into the underlying facts of the occurrence in order to measure the adequacy of what is reported," he said. "In order to determine the adequacy of a report that comes out of an event, you have to know what went on." He added: "I do not see evidence anyplace at this time of a whitewash. Quite the contrary, what we are engaged in is getting out the facts and . . . we're going to get the facts."

Paris Talks Boycotted

(Continued from Page 1)

replaced the formal sessions themselves as a means of clarifying information. Communists and the allies argued inconclusively about Secretary of State William P. Rogers's recent remarks to the Senate Foreign Relations Committee.

At issue was the Rogers statement that the United States had made clear to Hanoi that Washington did not insist on having the present Saigon regime conduct new elections that might end the war.

Both the Viet Cong and Hanoi press spokesmen claimed the first they had heard of the stand was through the press earlier this week when a truncated version of Mr. Rogers's remarks was released.

Mr. Le said that, if true, the Rogers testimony "proves the inconsistency, incompatibility and internal contradictions between the different declarations of the Nixon administration."

He argued that such a stand undermined Washington's position that the regime of President Nguyen Van Thieu was "legal, authentic and constitutionally elected."

Mr. Ledogar insisted Hanoi was fully aware of the stand, but he saw "no new departure" and "no contradiction between what the secretary said and the statement by President Thieu on July 11."

Mr. Thieu offered last July to discuss the "calendar and modalities" of such elections. The proposal, although rejected again today by the Communists, remained negotiable, Mr. Ledogar suggested.

"For reasons of its own" the Hanoi delegation has chosen not to be interested in the election proposal and "thus has called it a perfidious maneuver by the United States to stuff the ballot boxes," Mr. Ledogar added.

Fulbright Calls Nixon View On Defeat 'Prideful Nonsense'

By Warren Unna

WASHINGTON, Dec. 11 (WP).—President Nixon's warning that a precipitous U.S. withdrawal from Vietnam meant national "defeat and humiliation" was termed "prideful nonsense" yesterday by Chairman J. William Fulbright, D., Ark., of the Senate Foreign Relations Committee.

Sen. Fulbright said that when Mr. Nixon and former President Lyndon B. Johnson warn against American defeat "they are not talking about the national interest but about the national ego and their own standing in history.

"A war is not a football game which you try to win for its own sake, or in order to maintain an unblemished record of victories," he told a student audience at Washington University, St. Louis.

First Criticism in Months

Sen. Fulbright used the forum of a memorial lecture named for the late Sen. Thomas C. Hennings, D., Mo., to make his first formal criticism of the Nixon administration's Vietnam policy in many months.

"This war is not now and never has been essential to our interests, essential, that is, to the freedom and safety of the American people," he said. "The exact terms of peace do not, therefore, matter very much from the standpoint of American interests.

"But the early restoration of peace matters enormously because every day that this war goes on the sickness of American society worsens."

Sen. Fulbright was particularly critical of Mr. Nixon's Nov. 3 Vietnam policy speech and Mr. Nixon's reference to two choices: "precipitate" withdrawal or, with a stalemate at the Paris peace talks, Vietnamization.

The senator said the preferable option would be for the United States to start negotiating with Hanoi in Paris on three matters:

- Arranging a new interim government to replace President Nguyen Van Thieu's in South Vietnam.
- Arranging for elections to be conducted by this interim coalition regime—"with or without international supervision."
- Arranging for "complete" U.S. troop withdrawal.

"For whatever their reasons—conviction, pride or dogmatic anti-Communism—our policy-makers have never been willing to recognize the Vietnamese conflict for that which virtually every expert and seasoned observer has long recognized it to be: a civil conflict in which Communism is, and always has been, secondary to the drive for national independence," Sen. Fulbright said.

"Once it is clear that the war in Vietnam is neither a valid global testing of the 'liberation war' doctrine, nor a proxy war in a grand Chinese strategy for the conquest of Asia, it follows inescapably that the United States has been fighting a war without need or justification," he added.

Comparison With Yugoslavia

Sen. Fulbright suggested that if the United States had not been so intent on taking over Vietnam's welfare from the French in the mid-1950s, Vietnam "probably" would have become a unified, independent nation by now. He also said the United States "probably" even would have been on as good terms with Vietnam as it now is with Yugoslavia.

"After all this killing and destruction and unless we remain in permanent occupation of Vietnam, the eventual outcome will probably be the same that it would have been if Americans had never gone to Vietnam," Sen. Fulbright predicted.

He hinted that recent secret committee testimony from both Defense Secretary Melvin R. Laird and Secretary of State William P. Rogers left him with the impression that the administration is contemplating leaving behind a post-Vietnamization "residual support force" of from 100,000 to 300,000 men.

GI Toll Rises To 100 for Week

SAIGON, Dec. 11 (UPI).—The U.S. comand said today 100 Americans were killed in the war last week, compared with 70 the week before. Another 592 U.S. servicemen were wounded.

Government losses also rose sharply last week. South Vietnamese spokesmen said. They reported 411 government troops killed and 1,005 wounded, compared with a toll the previous week of 373 dead and 953 wounded.

The American losses last week were the highest since the week ending Nov. 22, when 130 U.S. servicemen were killed and 653 wounded.

BUTTRESS FUND

...your solid support against inflation

Top Investment Advice

Investment Advisers are **LAZARD BROS.** who have long-established connections with the major financial centres of the world. The aim of the Fund is capital growth and investment will primarily be in the U.S.A. but Canada, Japan and Europe may also be covered.

Top Management by Butterfield Management Co. Ltd., a subsidiary of The Bank of N. T. Butterfield and Sons Ltd., the oldest established bank in Bermuda who currently administer assets worth $440m.

Present Yield of the Dollar Fund is $100 Income is reinvested to increase the value of your holding and accumulation units are allotted to you. A yearly certificate of the sum reinvested is issued to each unitholder. No tax is payable by the Fund other than withholding tax levied on dividends by some countries where investments are held.

Protection for your estate. Group life policies are issued to the management company at no cost to you. These ensure that if you die before 65 your estate receives the full amount of your investment with no deductions, or the full current value of your holdings whichever is the greater.

Buying your Units

The Fund is valued once a month, usually on the first Monday, and you can buy units at the valuation price during the week following this valuation day, after that at the next subscription day price. The price is quoted daily in the International Herald Tribune. The offer price on the 8th December was $0.93. The next subscription day is 12th January.

The Managers guarantee to buy back units at the bid price on any valuation day provided three weeks prior notice of redemption has been received.

Charges. There is an initial charge of 1% and an annual charge of ½% of the value of the Fund. There is also a sales charge on a sliding scale with a maximum of 7·5%.

Sterling Funds. These are available as a means of investment in the Dollar Fund for those people who have not got access to dollars or convertible currency.

Please use this application form to make your investment in the Fund, or to ask for further information.

To Buttress Investment Services Ltd., P.O. Box 195, Hamilton, Bermuda.

I hereby apply for units of Buttress Funds at the offer price at the next valuation. I enclose a Bank Draft for the amount I wish to invest made payable to Buttress Investment Services Ltd.

...k Mayor Questioned

...ssive Indictments' Seen In Probe of N.J. Corruption

By George Lardner Jr.

...ARK, N.J., Dec. 11 (WP).— ...al officials have picked up ...s of pages of testimony ...ocal grand jury here for ...cedented investigation in- ...es of corruption in New- ... government.

...obe has already touched Mayor Hugh J. Addonizio, ...mitted yesterday that he ...thony (Tony Boy) Boiardo, ...Mafia racketeer and one ...y figures in the investiga- ...ler he had refused to tell ...grand jury whether he ...pted bribes from contrac- ...o worked for the city, the Fifth Amendment,

which allows witnesses to ignore questions whose answers might incriminate them.

"I do know him (Boiardo)," Mr. Addonizio told a federal judge, "and the answer may provide a link in a chain of evidence which may tend to incriminate me." The judge may still order the mayor to testify, however.

[A massive indictment of public officials on the local level, for alleged links with organized crime, is expected within the next week to ten days, Attorney General John N. Mitchell said in Boca Raton, Fla., Wednesday.

[Mr. Mitchell refused to identify the localities involved, but he said it was in the same state as a recent case involving ties between Internal Revenue Service agents and criminals, which would place it in New Jersey.

[Speaking before a convention of the Investment Bankers Association, he said: "In one particular state, a great portion of the Internal Revenue Service was controlled by organized crime syndicates. In this same state within the next week or ten days, there is going to be a massive indictment of public officials on the local level. In that same state, through activities we are conducting, we are going to break up probably the largest gambling syndicate that's ever been broken up in this country."]

Link Riots and Crime

U.S. officials have said that the racketeering and corruption they are investigating was one of the causes of the massive 1967 Newark race riots.

"We have observed," assistant U.S. Attorney General Will Wilson said yesterday, "a constant pattern in riot areas of the nation, in that riots occur where rackets or corruption are impacted and exploit low income groups, leading to social discontent that erupts periodically into violence."

A state commission that looked into the riots drew a similar conclusion. It reported "a pervasive feeling of corruption" in Newark, a conviction among residents that "everything at City Hall is for sale."

Hints of corruption elsewhere in New Jersey also emerged this week when a state judge in Trenton, the capital, was indicted for attempting to bribe a prosecutor to drop a case involving organized crime.

'Infiltrated by Crime'

The judge will also be investigated by a state grand jury set up to dig into accusations of widespread racketeering. New Jersey's governor-elect, William Cahill, has charged that the state is "truly infiltrated by organized crime."

As part of the federal investigation in Newark, the Justice Department this week took over the records of an earlier inquiry by an Essex County grand jury. Essex County includes Newark, New Jersey's largest city with some 2 million inhabitants.

The county investigation began early in 1968 with a probe of personal finances of several city officials, including Mr. Addonizio. Essex has now agreed to allow the Justice Department to try to prove federal laws have been broken before trying to prosecute state violations.

The arrangement was hailed as a breakthrough since local authorities in America are often jealous of their legal prerogatives and resent federal intrusion. Mr. Wilson, who heads the department's Criminal Division, called the agreement "unprecedented . . . a major step . . . in investigating reports of crime and corruption."

From the questions that have surfaced thus far before the federal grand jury, the Justice Department's investigation is evidently focused on the activities of Boiardo and Paul W. Rigo, who is a partner in two engineering companies who have secured some $2.5 million in contracts from the city since 1966.

Boiardo, who is said to be top man at an electrical firm, though he is not listed as an officer, is a reputed member of the old Vito Genovese family of the Mafia. The firm has picked up public works contracts with the city and other public agencies here totaling some $11 million.

At his appearance before the grand jury Tuesday, Mr. Addonizio refused to say whether he knew Anthony Boiardo, his father—said to be a Mafia "capo" or captain—or Rigo. He also refused to say whether he ever received "any money from Paul Rigo or his associates" after municipal contracts had been handed out.

Two Phases Of Re-Entry

Like the moon, the Apollo-12 astronauts' homecoming had two widely different sides. While Richard Gordon (above) received all the warmth of a sunlit area in a hug and a kiss from his wife, Barbara, mission commander Charles Conrad (left) found "a vast forbidding expanse of nothing" as he walked into an empty home. The astronauts had been let out of quarantine earlier than scheduled, so Capt. Conrad's sons were off at school and his wife was out doing charity work. At last report, Capt. Alan Bean had made a safe landing.

Agnew Criticizes Emphasis On Higher Education in U.S.

(Continued from Page 1)

tendance compounds social antagonisms between those who go and those who do not. For if everyone is expected to attend college, life will only be harder on those who simply cannot achieve in an academic setting."

Mr. Agnew warned that "a revolutionary look at our institutions of education" is necessary in order to prevent "revolution within our educational community." He said society should be prepared "to ask daring questions . . . (to) consider bold solutions."

"We have neglected vocational and technical education for the elegant ornament of liberal arts," Mr. Agnew said. "Certainly the social sciences are important but they are not sacrosanct. And in our society, which needs skilled labor, we must restore the manual arts to their rightful place of esteem."

Repeating a theme he used as governor of Maryland, the Vice-President said the nation should ask itself whether the four-year college degree is necessary in all cases, whether there are better ways to combine secondary and undergraduate programs, whether graduate work should be accelerated or spaced out over the years, whether more money should be invested in adult education and enrichment, and whether existing primary and secondary school programs are "creating enough outstanding citizens."

Courage and Cooperation

"The answers require courage and cooperation from every sector of our society," Mr. Agnew said. "There is little point in questioning the value of graduate degrees in the soft sciences if businessmen continue to treat these degrees as keys to open the inner doors to better jobs.

"There is no point in discussing black studies without an objective reordering of educational priorities by the black community. There is no hope for major academic reform without the support of America's academicians. There is no chance for change if parents revere the college degrees as a symbol of their parental success.

"All too many students now in college," Mr. Agnew said, "have little interest, ability and use for what constitutes a college education." Denied participation in the "real community, the youth seeks to politicize the only community he has—the academic one," Mr. Agnew said.

Many of these students, Mr. Agnew said, "would be better off with a high-level vocational education which is closely linked to a work program which gives scope to their needs for physical activity and visible, tangible achievement."

Mr. Agnew criticized demands for black studies, black dormitories and special black grading systems as often being "smokescreens evading the basic failure in black primary and secondary education." Many black college students "have been admitted to college just because they came from inner city ghettos," he said.

"They are bright," Mr. Agnew said, "but unprepared to compete with their highly articulate classmates. Without swimming lessons, they have been dumped in the mainstream and they are not going to drown without a struggle."

Last night's dinner was sponsored by the Worthington chapter of the Order of the American-Hellenic Educational Programs Association, a fraternal Greek-American organization. Mr. Agnew is a member of the chapter.

The scholarship program was initiated in 1966 when Mr. Agnew was county executive of Baltimore County. Scholarships to state colleges were presented last night to five students.

Mississippi to Sue in North In Anti-Desegregation Drive

JACKSON, Miss., Dec. 11 (AP).— An unusual "counteroffensive" to try to generate a nationwide backlash against public school desegregation was announced by Gov. John Bell Williams yesterday.

The governor told a news conference that Mississippi will file a multitude of court suits outside the South to make certain the "judicial tyranny" of school desegregation also is imposed there.

Gov. Williams said the suits will be filed by flying task forces of lawyers and will cost about $1 million, with the money to come either from legislative appropriation or contributions.

"We in Mississippi, if we are to suffer under this kind of judicial tyranny, have a right to ask that it be uniformly applied throughout the United States," he said.

Strict enforcement of school desegregation all over the nation will produce a backlash of public opinion and put pressure on Congress to "return control of schools to local officials," the governor predicted.

State Attorney General A. F. Summer would direct the legal drive, which the governor termed "a rather bold and far-reaching plan."

The governor said he had not sought reaction from legislators regarding the proposal, but if they won't finance it, "I am confident the people of Mississippi will on a voluntary basis."

Mr. Summer said civil rights organizations such as the American Civil Liberties Union and the National Association for the Advancement of Colored People would be invited to join in the legal attack.

Gov. Williams said the campaign would be aimed primarily at "certain states and areas" in the North and East which, he said, operate segregated schools, but "enjoy immunity" from recent federal court orders imposed on Mississippi.

He was referring to the U.S. Supreme Court's decision that school desegregation may no longer be delayed by further legal argument. Gov. Williams said immediate desegregation could severely damage the public school system in Mississippi.

In Alabama, Attorney General MacDonald Gallion said he wants to hear more about the proposal, but felt the objective was "long overdue." He said all states should be treated equally.

Gov. Lester Maddox of Georgia said in Atlanta he agrees with Gov. Williams and feels the federal government has "thrown the children to the wolves." But he added: "I don't think this [plan] will help solve our problem. I don't think I would want to get involved in creating a disturbance in someone else's state."

Ill. Policeman Says Panthers Fired First

Chicago Investigates Death of Militants

CHICAGO, Dec. 11 (Reuters).— The sergeant who led a police raid in which Black Panther leaders Fred Hampton and Mark Clark were killed denied today that the two men were deliberately gunned down in their slum apartment here.

Sgt. Daniel Groth said in a copyrighted story in the Chicago Tribune that the police only opened fire after the raiding party was hit by a shotgun blast through a closed door at the apartment.

Police have launched an inquiry into the slayings, which took place last Thursday after widespread allegations that the raiding party deliberately killed the two militant Panthers.

Cook County State Attorney Edward V. Hanrahan, whose office supplied the 14-man raiding party, was quoted as describing the allegations as "an orgy of sensationalism."

The Tribune said he had made Sgt. Groth and other members of the party available for interview to refute the charges.

Tip on Arms

Sgt. Groth told the Tribune the raid was mounted after a tip that there was a cache of arms in the apartment. He said it was not known that Mr. Hampton and Mr. Clark were on the premises until after they had been killed.

The sergeant—a member of the 104-man police detail permanently attached to the state attorney's office—said his party's weapons included a submachine gun and three shotguns.

Sgt. Groth said that he twice rapped on the front door of the apartment, announced the police were there and ordered the occupants to open up.

A man's voice told them to wait a minute, but, getting suspicious of the delay, he ordered one of his men to kick down the front door.

He and another officer entered to find a small ante-room leading to a closed door of the living room. A shotgun blast was fired through the closed door. There was another blast, then police returned the fire, he said.

Police Superintendent James Conlisk announced the inquiry last night amid mounting concern over the killings and demands from black and white community leaders across the country for an official probe.

In Washington last night, nine Negro members of the House of Representatives announced an unofficial congressional hearing on Dec. 20 into police-Panther incidents.

Justice Dept. Denies Policy Of Harassing Black Panthers

WASHINGTON, Dec. 11 (WP).—The Justice Department said yesterday that it "has never had any policy of concerted activity with local police in order to harass any members of the Black Panther party."

Some Panther supporters have claimed that federal authorities have joined state and local law officers in an effort to suppress the militant black group.

A spokesman for Attorney General John N. Mitchell said that "one member of the Black Panther party has been indicted this year by a federal grand jury for party-related activities and that was for making a public threat against the life of the President."

The Justice Department statement noted that the "recent incidents of violence," including the slaying of two Black Panther leaders in Chicago last week, "took place when local police departments were attempting to serve warrants. The violations alleged in the warrants were infractions of state law and were not under federal jurisdiction. No federal officials participated in the police actions."

The statement added that the department's Civil Rights Division "is considering a request to make an investigation of allegations that undue force may have been used by local police in carrying out their obligations."

A department spokesman said the request for an investigation was made by Illinois State Sen. Charles Chew jr. after the Chicago slayings in a police raid last week.

In San Francisco, Charles Garry, the general counsel of the Panthers, called the announcement "the start of a whitewash . . . to give a halo to local police action in Chicago."

"There have been FBI agents in on every one of those arrests involving Black Panthers," said Mr. Garry. "Nothing is done without the FBI being in on it.

"They have tapped telephone wires at all Black Panther headquarters and at the homes of all Black Panthers and their attorneys. All of their homes are being watched constantly.

"The conduct of the Department of Justice is just as atrocious as any of the state or local police action," added Mr. Garry.

Civil rights attorney Joseph L. Rauh of Washington, a vice-chairman of the Americans for Democratic Action, asked chairman Emanuel Celler, D., N.Y., of the House Judiciary Committee, to begin a committee investigation of police shootings of Black Panther officials.

Negroes Urge Strike

LOS ANGELES, Dec. 11 (UPI).—Several Negro organizations, including the National Association for the Advancement of Colored People, today called for a one-day general strike and march on City Hall to protest what they called "police repression of the black community."

The demonstration was precipitated by a gun battle between Black Panthers and police Monday which left three policemen wounded and five Panthers injured.

U.S. Rejects Tear Gas Ban By UN Panel

WASHINGTON, Dec. 11 (UPI).—The State Department made it clear today it does not consider as binding the UN Political Committee's declaration yesterday that the use of tear gas and herbicides was illegal.

Department spokesman Carl Bartch told newsmen that passage of the resolution, initiated by Sweden, "does not in our view represent an international consensus on the major issues raised by the resolution."

He noted that the vote on the resolution, based on an expanded interpretation of the 1925 Geneva Protocol against the use of asphyxiating, poisonous or other gases and bacteriological methods, was 58 in favor, 3 against and 35 abstentions.

He said that less than half of the UN members voted for the resolution and that more than one-third of those voting chose not to associate themselves with it.

"We continue to believe that the Geneva Protocol does not prohibit the use in war of tear gas and herbicides, and while we recognize that others may disagree with our positions, we maintain that the UN General Assembly is not the proper forum to decide such disputed questions of international law," he added.

Ray to Appear Dec. 29 At Complaint Hearing

WASHINGTON, Dec. 11 (WP).—(AP).—James Earl Ray, serving a 99-year prison sentence for assassinating the Rev. Dr. Martin Luther King jr., has been ordered to appear at a federal court hearing Dec. 29 on his complaint about maximum-security confinement.

U.S. District Court Judge William E. Miller directed that state corrections officials deliver Ray in person "under proper security precautions."

Ray contends his civil rights have been violated by his being confined to a maximum-security cell at the penitentiary.

Senate Panel Votes to Keep ABM in Bill

Move to Eliminate Safeguard Rejected

WASHINGTON, Dec. 11 (AP).—The Senate Defense Appropriations Subcommittee rejected yesterday a move to cut $769.6 million for the Safeguard anti-ballistic missile (ABM) from the $70 billion defense bill.

The cut, proposed by Sen. Margaret Chase Smith, R., Maine, would have removed all ABM funds in the bill except $9.8 million for military personnel.

The vote of the subcommittee was not available but only four of the 13 members of the panel voted against deployment of the ABM when the issue was before the Senate in connection with the military procurement authorization bill.

The issue now goes to the full Senate Appropriations Committee, which contains a 15-9 majority for the ABM based on last August's Senate vote.

The subcommittee approved the bill and sent it on to the full committee but details of its actions were not available.

The money bill, cut $5.3 billion by the House, is expected to come to the Senate floor next week. The full appropriations committee will likely meet on the bill tomorrow.

In other congressional action:

● The House Appropriations Committee voted to give an extra $9.35 million to the U.S. Treasury Department's fight to cut off an illegal flow of marijuana and narcotics at the border.

Largest Cabinet in History

Coalition Government Formed in Israel

JERUSALEM, Dec. 11 (NYT).—Premier Golda Meir presented her cabinet today to President Zalman Shazar after settling a last-minute impasse over a domestic policy plank. It was the last day of the time allotted to her to form a government.

Leaders of the right wing Gahal faction had sought independence on voting for certain anti-socialist legislation but withdrew the main points of their demand this morning.

The cabinet, reflecting the results of the Oct. 28 general elections, will have 24 ministers, the largest in Israel's history. A smaller "inner" cabinet will continue to make the important decisions.

Twelve portfolios, including all the major ones, remain in the hands of Mrs. Meir's Labor party. Gahal will have six ministers, the National Religious party, three, the left wing Mapam, two, and the Independent Liberals, one.

The new government, which is expected to take office formally next week, controls 98 of parliament's 120 votes. None of the five opposition parties has more than four seats.

Mrs. Meir's "national unity government" consists of the same parties as the last one but with right wing Gahal members holding more influential positions. This might give the government a less flexible and more strident tone with regard to Arab policy.

Mapam's representatives in the cabinet will be ministers without portfolios, sharing collective responsibility only for foreign affairs, security and the budget. Mapam refused to be associated with Gahal on social and economic issues.

Gahal, in contrast, will be operating four ministries in addition to holding the two minister-without-portfolio posts it had in the last government. Mapam and Gahal have in effect changed roles.

15 Killed in Floods

SINGAPORE, Dec. 11 (UPI).—Two-day floods over Singapore and neighboring Johore State in Malaysia killed at least 15 persons in the path of swollen rivers fed by the heaviest rains in 15 years.

Rogers' Talk Aimed at New Arab Accords

Need for Diplomatic Relations Reiterated

(Continued from Page 1)

Arab states for a binding and "permanent" peace with Israel.

He acknowledged that this "balanced" policy would be "unpalatable to both sides."

Officials minimized the significance of the precise timing of the policy statement, noting that it had been in preparation for over two weeks. The secretary returned to this country from a European tour only on Monday.

Since the Israeli Foreign Minister, Abba Eban, is due to start an American lecture tour today, officials were eager that the speech be delivered before his arrival. He is expected in Washington next week for a brief round of talks with administration officials.

It was also considered important that the U.S. position be authoritatively stated well in advance of the Arab summit meeting opening in Rabat, Morocco, on Dec. 20. The hope of tempering some of the harshest anti-American sentiments among Arab spokesmen was a key factor in outlining hitherto private positions at this time.

Israel Irked By U.S. Policy

(Continued from Page 1)

resolution, invaded in 1948, Mr. Allon said the city had been united legally "by Knesset (parliament) action."

The holy places had never been so secure and so open to all faiths as they had since the June 1967 war, Mr. Allon said. He added that Israel had no intention of taking orders from anyone on the issue of Jerusalem.

He seemed to be referring generally to UN resolutions calling on Israel to revoke her annexation of East Jerusalem and more specifically to a recent American policy statement on the Jerusalem issue.

Israel has indicated that she would agree to a Jordanian role in control of the Moslem holy places but has vowed never to share administrative control of the city.

Mr. Allon, in reassuring parliament that Israel was reinforcing her administrative decision with settlement, said that 200 Jewish families had already moved into the first of the completed housing projects in the former Arab quarter.

This project is named Ramat Eshkol, after the late premier, Levi Eshkol. One hundred and fifty families will move in each month until its 2,100 apartments are filled.

Vienna Probable Site for Next SALT Meeting

HELSINKI, Dec. 11 (UPI).—The United States and the Soviet Union will probably go to the Austrian capital of Vienna for their strategic arms limitation negotiations next year, diplomatic sources said today.

In this event, the source said, the end of January or the first half of February is the probable starting date.

American and Russian experts met at working level today to discuss a site for the full negotiations.

Other experts continued the drafting of a joint communiqué to be issued when the present preliminary phase ends. Chief negotiators Gerard C. Smith and Vladimir S. Semenov most likely will meet again next Monday, conference sources said.

A final session between the two delegations would then be held Wednesday. The delay was explained by the fact that drafting a communiqué for such vital talks is not simple. Texts must be referred back to capitals for comment and eventual approval.

Associated Press.

THE SCOURGE OF WINTER—They call it space fever, but the Italians are very down to earth about fighting the flu which has laid low 15 million of them. Here, they queue up outside a drug store in Rome to buy vaccine, decongestants or whatever medicine they can find.

Red Cross Strike Canceled in Italy As Flu Rages

ROME, Dec. 11 (AP).—Employees of the Italian Red Cross today called off a 72-hour strike to face the flu epidemic which has hit over 15 million Italians.

The Red Cross personnel, flooded by calls for help, announced they were setting aside their financial demands for the time being to cope with the emergency. The strike was scheduled to run from today through Saturday.

A Red Cross spokesman said ambulances throughout the country have been making an average of over 20 rides a day to pick up sick persons and carry them to overcrowded hospitals.

Police have ordered their own ambulances and police cars help the Red Cross.

Meanwhile the flu epidemic continued to rage through France particularly in Paris where absenteeism was reported so serious that subway secondary entrances to many stations were closed.

A Paris druggist said today that judging from the almost panic rush for anti-flu medicine, it seemed that virtually everyone in the capital was affected.

FDA to Get New Commissioner in Shakeup by HEW

WASHINGTON, Dec. 11 (AP).—Secretary of Health, Education and Welfare Robert H. Finch announced yesterday a shakeup of the U.S. Food and Drug Administration, including the ouster of its commissioner and two of his key associates.

The FDA will undergo a total reorganization by Feb. 1, 1970, and regain a higher rung on the government ladder that it lost 18 months ago, Mr. Finch said.

Mr. Finch announced that Dr. Herbert L. Ley jr., will be replaced as the agency's commissioner Feb. 1 by Dr. Charles C. Edwards, a one-time surgeon, who is now an aide to Dr. Roger O. Egeberg, assistant secretary for health and scientific affairs.

The shakeup followed months of criticism directed at the agency by Congress, consumer advocates and the food and drug industries.

Brussels Subway Offers Free Rides

BRUSSELS, Dec. 11 (AP).—Passengers on the new Brussels subway will travel free for the first three days after King Baudouin opens the line next Wednesday.

The city's first subway line, linking the European Economic Community's headquarters with the city center, will use streetcars at first.

Israel Censured By Press Group For Censorship

TEL AVIV, Dec. 11 (UPI).—The Foreign Press Association (FPA) in Israel, comprising more than 100 accredited members, today demanded that Israel abolish censorship on all outgoing news material.

An FPA statement said the way censorship is now being applied is "ineffective and inoperable" and is applied "indifferently on identical stories depending upon who is on duty, whether the material is submitted in Tel Aviv or Jerusalem and the time of day one approaches the censor."

"On occasions details of pertinent news stories are withheld for what appear to be reasons of image or prestige," the statement said.

"There have been numerous violations of censorship by correspondents who filed their dispatches from outside Israel.

"No action has been taken against such violators and none is practical," the statement said.

17 Workers at Fiat Sued for Damages

TURIN, Dec. 11 (Reuters).—The Fiat Motor Company yesterday brought charges of boycotting or damage against 17 of its workers.

They are accused of damaging about six tons of car parts under assembly when work was suddenly stopped by a strike earlier this month.

Fiat has been one of the Italian companies hardest hit by strikes and demonstrations, occasionally accompanied by violence, during the country's more than three-month-long labor dispute.

Catholic Document Backs New View Toward Judais

NEW YORK, Dec. 11 (NYT).—A far-reaching document on relations between Roman Catholics and Jews that recommends reforms including the possibility of joint prayer has been made public by Lawrence Cardinal Shehan, archbishop of Baltimore.

The document was approved last week by the Vatican Secretariat for promoting Christian unity at a plenary session in Rome attended by Cardinal Shehan. Officials of the American Bishops Secretariat for Catholic-Jewish relations said today that no further official action was required before the document is sent to all the national bishops' conferences of the church.

The conference would then use the 12-page report as a guideline for implementing programs to improve Jewish relations. The recommendations include the following:

● Catholics should recognize the religious significance of the state of Israel for Jews and attempt to "understand and respect" this "link between the people and the land."

● The Jewish religion should not be seen as a stepping stone to Christianity and the Old Testament should be recognized for its "proper validity."

● The Catholic view of the Jewish religion should recognize that it is not one of "justice alone," thus "implying that only Christianity possesses the law of love and freedom."

Throughout the document are continuing references to Judaism as a growing faith that continues to "enrich" itself "and develop in a rich spiritual tradition."

Reaction to the document from Jews was enthusiastic. Benjamin R. Epstein, national director of the Anti-Defamation League of B'nai B'rith called it "a statement of the greatest significance."

"Perhaps for the first time in 2,000 years of history," he said, "the church is looking upon... and the Jews as they [illegible] selves—people of the co[illegible] the Torah and of the [illegible] Land.

"It requires study and [illegible] doubt receive it in Jewis[illegible] for it is very likely to plac[illegible] Catholic relationships on a [illegible]y new plane."

Catholic officials in th[illegible] States described the doc[illegible] an extension of the 1965 [illegible] by the Second Vatican C[illegible] the Jews which took na[illegible] "spiritual patrimony co[illegible] Christians and Jews" and[illegible] that Christ's death coul[illegible] blamed upon all the J[illegible] living, without distinct[illegible] upon the Jews of today."

Cited as among the r[illegible]ommendations of the do[illegible] the recognition of the [illegible] Israel as having importan[illegible] meaning. This is a maj[illegible]sion on the Vatican II [illegible] as is a clause which a[illegible] "Christians ask pardon [illegible] Jewish brothers for gene[illegible] persecution."

Sirhan Ends Hunger Strike

SAN QUENTIN, Calif., Dec. 11 (Reuters).—Sirhan B. Sirhan, convicted assassin of Sen. Robert F. Kennedy, has said he will end his two-week hunger strike today in the hope he has induced San Quentin Prison authorities to let him talk to other prisoners.

The 25-year-old Arab immigrant told his attorney yesterday that he would resume eating for just 30 days while officials consider removing the barriers that isolate him on "death row."

Attorney Luke McKissack told reporters that Sirhan was determined to fast to death if his request was not granted.

Sirhan has been existing on cocoa and coffee since Nov. 28 when he sent a message to an associate warden, James Park, saying he would refuse food because of "Nazi concentration camp-like treatment."

Barriers isolating his cell have stopped him from getting closer than 15 feet to other prisoners since he was brought here nearly seven months ago.

New Heart Fails After 15 Months

ANN ARBOR, Mich., Dec. 11 (AP).—Philip T. Barnum, 50, died yesterday at University of Michigan Hospital, 15 months after he received the heart of a prison inmate.

During the time he lived with the transplanted heart, Mr. Barnum saw his youngest daughter graduate from high school and his son get married.

Doctors said it was unlikely he would have lived for more than two months without the transplant. They said his death was caused by his body finally rejecting the heart and by pneumonia.

New Greek Coin

ATHENS, Dec. 11 (AP).—The ruling Greek colonels' regime announced yesterday it is to circulate a new 20 drachmae (66 U.S. cents) coin with its own symbol, a soldier standing before a phoenix rising out of ashes, replacing the traditional bust of former Greek kings.

Soviet Art Get Warn To Toe L

No Foreigners Aboard

S. Korean Airliner Hijacked To North With 47 Passengers

SEOUL, Dec. 11 (NYT).—A South Korean commercial airliner with 51 persons aboard was hijacked to North Korea today after it took off from the east coast town of Kangnung for Seoul shortly after noon.

No foreigner was among the passengers.

The Japanese-made two-engine, turbo-prop plane, model YS-11, of the Korean Air Lines (KAL) was reported to have landed later at the Communist port city of Wonsan on the Japan Sea coast, 100 miles north of Kangnung.

Minister of Culture and Information Shin Bum Shik, immediately accused North Korea of "an act of piracy and reckless barbarism." The official government spokesman likened the incident to the North Korean seizure of the American spy ship Pueblo in January, 1968, and its shooting down of a U.S. Navy EC-121 reconnaissance plane last April.

He said the Seoul government would "employ all means" to secure an early return of the 47 passengers and the four-man crew, including two stewardesses, and of the aircraft.

Red Cross Intervention

As the first step, the Korean National Red Cross cabled the International Committee of the Red Cross, in Geneva, asking for its intervention.

A direct request to North Korea through the Military Armistice Commission channel at Panmunjom could be another means.

Top South Korean government officials held a series of hurried meetings this afternoon to discuss the incident.

North Korea, meanwhile, remained silent about the incident.

Cho Choong-Hoon, the KAL president, said at a news conference here that "although there was no way of determining how the plane was abducted, it is obvious that it was done at the instruction of the North Korean regime."

He said that two passengers who boarded the plane at the last minute, claiming that they were high officers of the South Korean Army, could have been hijackers. When the airline officials tried to check their identities, the younger one of the two told them in a threatening manner that the other was a brigadier general from the 15th Army Division and should be accorded VIP treatment.

It was the second time a South Korean airliner was hijacked to North Korea. In February, 1958, a DC-3 with 34 persons aboard, including two Americans and two West Germans, was forced into the Communist country. North Korea kept the plane but returned all passengers except the eight hijackers through the armistice village of Panmunjom 18 days later.

Tornadoes in Florida

FORT LAUDERDALE, Fla., Dec. 11 (UPI).—A series of tornadoes battered Florida yesterday, injuring at least 12 persons and causing extensive damage. Broward County bore the brunt. In the St. Petersburg area 60 homes were damaged and several communities in central Florida's citrus belt also were hit.

Deposed Head Of Dahomey Declared Safe

COTONOU, Dahomey, Dec. 11 (Reuters).—Dahomey was calm today in the wake of yesterday's military coup and the country's armed forces chief, Lt. Col. Maurice Kouandete, went on the radio to guarantee the safety of deposed President Emile Derlin Zinsou.

The only brief disturbance came when women relatives of the ousted civilian president appeared on a city street with placards demanding his release from detention. But police rapidly intervened and dispersed the group.

Mr. Zinsou, 51, originally appointed to the presidency by the army in July, 1968, is currently reported to be in Natitingou in the northern tip of the French-speaking West African nation.

In his radio broadcast, Lt. Col. Kouandete, 37, said Dr. Zinsou was safe and his security assured. He warned people against spreading rumors that the ousted president is dead.

The coup is the latest in a series which has taken place since Dahomey became independent from France in 1960.

Lt. Col. Kouandete has been prominent in Dahomey politics for several years, heading a coup in 1967 and taking over as head of government for a while before handing over his functions to Mr. Zinsou.

In a broadcast yesterday, Lt. Col. Kouandete said the latest upheaval came because Mr. Zinsou had failed to carry out his mission of national reconciliation.

In these conditions, he said, the army had again assumed its responsibilities and decided that Mr. Zinsou should be stripped of his powers.

Dahomey would continue to honor its international agreements and retain its membership in the United Nations, the Organization of African Unity and the Afro-Malagasy Common Organization, Col. Kouandete continued. The army would guarantee the security of people and property, he promised.

United Press International.

Lord Harlech and his bride, the former Pamela Colin.

Lord Harlech, American Journalist Wed

LONDON, Dec. 11 (Reuters).—Britain's former ambassador to Washington, Lord Harlech, 51, married American journalist Pamela Colin today in a ceremony attended by Princess Margaret and her husband Lord Snowdon.

Miss Colin, 33, daughter of the wealthy New York lawyer and art lover Ralph Colin, used to be London editor of the American fashion magazine Vogue.

The wedding was at Grosvenor Chapel in London's Mayfair district.

Other guests included former Prime Minister Harold Macmillan, Lord Harlech's chief in the days when he was a government minister and the five children of Lord Harlech, their ages ranging between 17 and 28. His first wife Sylvia died in an automobile accident in 1967.

Miss Colin and Lord Harlech became engaged at the beginning of November. He is now the head of a commercial television company and president of the British Board of Film Censors. Miss Colin, not previously married, first came to London seven years ago.

Lord Harlech was a close friend of the family of the late President John F. Kennedy. In recent years there were rumors of a romance between Lord Harlech and the President's widow Jacqueline—now Mrs. Aristotle Onassis.

Miss Colin and Lord Harlech met two years ago.

Risking Breach With Unions

Labor Party Plan Would Curb Wage Hikes

LONDON, Dec. 11 (AP).—The Labor government risked an open breach with its trade union supporters today and called for new curbs on wage increases to hold down inflation.

Employment and Productivity Minister Barbara Castle announced the proposed curbs which will be debated in Parliament next week. She said they offered a choice between a steady advance to economic recovery and a waste of the benefits from the devaluation of the pound in November, 1967.

Her announcement came hours after figures were released showing that Britain made a profit in its trade with the rest of the world in November for the fourth straight month, a strong sign that devaluation is finally beginning to work.

Political sources said the £12 million ($28.8 million) surplus might help cushion Labor party anger over the new wage ceilings, although some Laborite rebels already were reported as saying privately that Britain's long ailing economy has recovered enough to allow some belt-loosening.

TUC Rejects Package

The Trades Union Council, representing nine million workers and the backbone of Labor's political support, immediately rejected Mrs. Castle's package as unacceptable and asked the government to think again.

The TUC forced the government to back down last summer and withdraw plans for strike-control laws. A similar campaign is expected from some unions to prevent government curbs on wages.

The Confederation of British Industry opposes other provisions in Mrs. Castle's package. The main ones are efforts to hold down prices and loopholes that will allow some wage increases without corresponding price increases.

Major provisions of her plan call for a limitation on wage increases next year of between 2.5 and 4.5 percent. Lower-paid workers, however, are to be exempted. In some cases improved efficiency will permit higher wage boosts.

At the same time industry was warned it should not pass on its higher costs to the customer in the form of higher prices.

No ceiling was set, however, on price rises.

Mrs. Castle defended her plan at a press conference. She said: "Its purpose is not to hold down wages—certainly not to freeze them—but rather to see that wage increases are real increases because they are related to the rise in the country's output."

She said the aim is to avoid a new inflationary "wages and prices explosion."

Luxembourg Aides Of EEC on 2-Day Strike

LUXEMBOURG, Dec. 11 (UPI).—About 800 employees of the Common Market in Luxembourg started a two-day strike today to protest against plans to give them lower cost-of-living wage increases than their colleagues in Brussels.

"It is inadmissible that personnel working for the same organization but in different towns be treated in a different way," a spokesman for the group said.

He said that if present plans are carried out, the Luxembourg employees will get 4.5 percent less than their 5,000 Brussels colleagues.

Malraux Pays Visit to De Gaulle

PARIS, Dec. 11 (Reuters).—Former President Charles de Gaulle today received André Malraux, former French culture minister and staunch Gaullist, at his village home in eastern France.

Mr. Malraux had lunch with the general at Colombey-les-Deux-Eglises, becoming the third politician to see him since he resigned last April.

Mr. Maurice Couve de Murville, former prime minister and Mr. Pierre Messmer, former defense minister, met with the general last July at Colombey.

Libya Reveals Suicide Try After Plotters Are Discovered

TRIPOLI, Dec. 11 (Reuters).—Libya's former defense minister, Lt. Col. Adam al-Hawaz, tried to kill himself when accused of plotting the overthrow of the military junta he helped to set up four months ago, it was officially stated here today.

Tonight, a court-martial was formed to try Lt. Col. al-Hawaz and others accused of plotting to overthrow the regime.

The Middle East News Agency reported from Tripoli that the court will be headed by Capt. Mohamed Negm, a member of the ruling Revolutionary Command Council. It includes two other members, Lt. Abdel Fattah Younis and 2nd Lt. Moufttah Rashid.

Col. Muammar al-Gaddafi, chairman of the ruling three-man Revolution Command Council, said in a statement published by the official Libyan news agency that his former colleague used the Defense Ministry building to meet others involved in the alleged plot.

They planned the coup attempt by appointing their supporters in leading army posts, Col. al-Gaddafi added.

He said Col. al-Hawaz, named as a "mastermind" of the alleged coup with the interior minister, Lt. Col. Moussa Ahmad, attempted suicide but was stopped. The news agency message gave no other details of the incident.

Meanwhile, angry crowds marched through the streets demanding death for alleged plotters.

Similar protests and demands for execution of the alleged plotters—who included the only two military members of the cabinet—were reported from other parts of the country overnight.

Those involved in the coup attempt face immediate trial by a special court headed by one of the three members of the left-wing Command Council, which came to power after the Sept. 1 military takeover that toppled the monarchy.

Coup Linked to U.S. Firm

TRIPOLI, Dec. 11 (UPI).—The leader of Libya's three-month-old government linked two U.S. business firms today with the attempted coup.

Col. Moammer al-Khazafy also said the attempt appeared timed to coincide with the start of negotiations with the United States and Britain on the closing of their military bases in this oil rich land.

Col. al-Khazafy said the attempted coup, which he said was timed for Dec. 7, came after he asked for negotiations with a U.S. electronics firm which had contracted to supply the royal regime with radio and signal equipment. Another U.S. firm maintained the equipment, Col. al-Khazafy said.

He named one firm as the TMC Electronics Co.

Franco Capuana, Opera Director, Is Dead at 75

NAPLES, Dec. 11.—Maestro Franco Capuana, 75, director of the San Carlo Opera, died last night following a heart attack as he was conducting the opening performance of the current season, Rossini's "Moses."

Mr. Capuana, of Fano on the Adriatic Coast, was born Sept. 29, 1894 and studied music in Naples, where he received his degree in composition.

Later, he went on to become a noted conductor, performing in many cities throughout the world. As a composer, Mr. Capuana wrote several works including the symphonic poem "The Resurrection of Lazzarus," a "sonata" for violin and piano and a string quartet.

Present at his side at the time of his death was his wife, Emilia.

Bishop Stanislaus Zela

VIENNA, Dec. 11 (UPI).—Bishop Stanislaus Zela, 76, persecuted both by the Nazis and the Communists, died last weekend at Radvanov, Czechoslovakia, in a home for the aged, the Austrian Catholic news agency Kathpress reported yesterday.

Bishop Zela was appointed bishop of Czechoslovakia's Olomouc Archdiocese 30 years ago, but held office only from 1945 to 1948.

The Nazis failed to legalize the Pope's appointment and the Communists jailed Bishop Zela in 1948, giving him a 25-year prison term in 1950, on charges of high treason.

Freed 10 years later, Bishop Zela was forced to live in the Radvanov home for the aged, the same institution the late Cardinal Beran lived in before he was allowed to go to his exile in Rome.

During the "Prague spring," Bishop Zela was fully rehabilitated, but unable to resume office.

Johnny Tobin

ST. JOUIS, Dec. 11 (UPI).—Johnny Tobin, 76, outfielder for the old St. Louis Browns from 1916 to 1925, died yesterday of pneumonia. He had a career batting average of .308.

Mr. Tobin began major league play with St. Louis in the Federal League in 1914 and rounded out his 13 major league seasons with the Washington and Boston clubs in the American League.

Jeffrey David Conway

GENEVA, Dec. 11.—Jeffrey David Conway, 59, who was president and managing director of Union Carbide Europe S.A., died here of a heart attack, a company spokesman announced.

Fla. Diphteria Outbreak

MIAMI, Dec. 11 (AP).—Emergency medical teams yesterday began inoculating 74,000 Miami school children against diphtheria. Three children have died in the outbreak. Florida usually has about 15 cases a year.

Pentagon Reveals AF Club Probe

WASHINGTON, Dec. 11 (AP).—The Pentagon disclosed yesterday that the U.S. Air Force, like the Army, has uncovered alleged irregularities, including money kickbacks in the operation of some officer and noncommissioned officer clubs, specifically in Thailand.

Secretary of the Air Force Robert C. Seamans jr., reported the alleged illicit activities have been revealed in an investigation extending back about 18 months.

Mr. Seamans pledged in a memorandum to Secretary of Defense Melvin R. Laird that the air force will "pursue this matter vigorously."

Pop Singer Acquitted On Two Drug Charges

TORONTO, Dec. 11 (UPI).—Pop singer Jimi Hendrix was acquitted yesterday on two charges of drug possession.

A 12-man jury deliberated more than eight-and-a-half hours before setting the 27-year-old singer free. He had been charged with two counts under the Canadian Narcotics Control Act—one dealing with possession of heroin and the other with hashish.

The Hard Way

The way of the peace-maker is quite as hard as that of the transgressor. Secretary of State Rogers, speaking publicly on the American program for peace in the Middle East, has been attacked by both Israelis and Arabs. The Soviet Union has praised the speech in New York—but, in effect, called upon the secretary to force Israel to comply with its terms, while simultaneously Soviet officials were promising to give Arabs more military aid and, apparently, doing nothing themselves to bring about a peaceful settlement except to talk of one in very vague terms.

Nevertheless, the United States has officially and openly taken a stand that most Americans will applaud. It recognizes both the Arab fear of continuing accruals of territory by Israel, and Israel's just demand for a permanent, peaceful settlement. And this is what the UN call for an Israeli pullback did not require of the Arabs.

One of the knottiest diplomatic problems remaining under Mr. Rogers's outline is the status of Jerusalem; the real issue now, however, is that of the displaced and Israeli-controlled Arab populations. Both Jerusalem and the "refugee" question are matters left over from the original Arab-Israeli war; neither would have remained to plague the world, in all probability, if the Arabs had accepted the first UN plan for a divided Palestine with an internationalized Jerusalem; both might have been worked out if the Arabs had not insisted on regarding the armistice that ended the first battles as simply that, and had cooperated toward some normalization of the status quo.

But after the displaced Arabs had been permitted to fester in their camps for two decades, and the June war of 1967 added to their number and supplemented their nuisance value with that of the occupied territories, they became a power in their own right—and one that, as the latest action in the UN Assembly shows, makes a greater appeal to world opinion than ever before.

It can no longer be guaranteed that a reasonable solution of the original refugee problem or an Israeli evacuation of the lands taken in the June war will end the guerrilla threat, either to Israel or to the Arab hosts of the fedayeen. The glimpse of a united Arab world has been seen in these guerrilla bands, and it is one that apparently holds more excitement for the Arab masses than the words and actions of the Arab governments. But to accept the role of the fedayeen as decisive is to relegate the Middle East to permanent war.

Consequently, something very like the American proposals must in the end prevail —and prevail against the Arab irregulars as well as against the ambitions of the governments concerned. Too much time has elapsed, too many grievances have been encouraged and aspirations taken popular hold to expect a tidy or swift solution. But the alternative is perennial war, the permanent disruption of normal life in a large area of the world, and continued confusion in global communications and trade.

The Money Bills for Christmas

It should not be necessary for President Nixon to call a special session of Congress the day after Christmas, as he has threatend to do if Congress adjourns without having passed all the regular appropriations bills. Senate Majority Leader Mansfield and many other legislators in both houses are equally concerned about the lag of the money bills. If necessary, they can recess Congress on Christmas Day and go back to work the day after.

Some legislators may grumble about such disruption of an anticipated holiday, but they have only themselves and their leaders to blame. It is true that Congress got a late start on the money bills this year because of the time required by the President to revise his predecessor's budget. But this is no excuse for leaving nine of the 13 appropriations bills languishing on Capitol Hill until the last month of the year. These bills were supposed to provide funds for the fiscal year beginning last July 1. But the Senate passed the fifth of the 13 only last Thursday, leaving an almost impossible work load for less than three weeks before Christmas.

Much of the blame for this logjam belongs, however, on the House side. Under the constitutional mandate, the House must act first. It is utterly unreasonable for the House to be dumping the $75 billion Defense Department bill on the Senate this late in the season. Its dilatory tactics have made it utterly impossible for the Senate to give adequate consideration to the remaining big money bills during the next few weeks. The Budget Bureau faces a scarcely less serious dilemma in trying to prepare a new budget for fiscal 1971, when the appropriations for the current fiscal year are not yet known.

Some easing of the problem might be found, so far as future years are concerned, by shifting the fiscal year to coincide with the calendar year, allowing six additional months for the enactment of the money bills. But this would be an expedient which might change nothing but dates unless Congress itself is willing to modernize its machinery and change its attitude.

Some experts familiar with the appropriating process on Capitol Hill insist that the chief factor in the worsening delay is lethargy. The House leaders allow the managers of the money bills to amble along at their own pace instead of fixing a date for the reporting of each bill. Legislative committees often stall in the enactment of authorization bills (which must precede appropriations) and Congress as a whole makes unnecessary work for itself by insisting upon annual authorizations in many cases regardless of the paralyzing consequences.

These are weaknesses which only Congress itself can correct. Since the whole country has an interest in the outcome, however, pressure from the White House and from public opinion is in order until a change has been effected. If the heat becomes intense enough, no congressman would be likely to show up in his home state for Christmas in any event until this most basic congressional chore has been completed.

THE WASHINGTON POST.

SALT and the Sino-Soviet Quarrel

By Joseph Alsop

WASHINGTON. — The SALT talks are going "very well." To be sure, this merely means the Soviets are refraining from the interminable procedural squabbles and empty, accusatory rhetoric with which they habitually open every negotiation.

The break with all past precedents is mildly encouraging, although it emphatically does not insure agreement at Helsinki. By the same token, it is also mildly encouraging that the Soviets have just opened talks with the West Germans in Moscow—to the ill-concealed horror of their East German puppet, the detestable Walter Ulbricht.

The trouble is, however, that the resulting situation can too easily prove to be the reverse of the famous dark cloud with the silver lining. If the increasingly powerful Soviet marshals are now planning a preventive attack on Communist China, it is obviously desirable for the Kremlin to cover its rear in the West. And the odds appear to be about even that this is what is really happening.

No one should be deceived by the third set of talks the Soviets are currently conducting, with the Chinese in Peking. To begin with, it is now known that the two great Communist adversaries are only talking at all because of the despairing pleas of the North Vietnamese, who stand to lose so much from a Sino-Soviet war.

The turning point was Ho Chi Minh's funeral. Hanoi's astute Premier, Pham Van Dong, apparently made impassioned appeals, first to China's Premier Chou En-lai, and then to the Soviet Premier Alexei Kosygin. Evidently the Kremlin Presidium only gave its assent to Pham Van Dong's prayer when Kosygin had already begun his homeward journey.

Meeting With Chou

The result was the abrupt sideflight to Peking, and Kosygin's grim little airport meeting with Chou En-lai, at which the Soviet and Chinese leaders agreed to begin negotiations. Yet continuing, acute North Vietnamese concern is indicated by the semi-permanent presence in Peking of the junior member of the Hanoi Politburo, Hoan Van Hoang.

Hoang, no doubt, is hanging nervously about on the fringes of the Sino-Soviet meetings, almost tearfully begging the Chinese to make any concessions that may be needed to avert a future conflict. Nor is this very surprising, given the real facts, plus the North Vietnamese interest in the outcome.

To begin with, it is perfectly clear that the Chinese only consented to talk at all because of Soviet threats, which must have so alarmed Hanoi that Pham Van Dong intervened. The language of the Chinese announcement of the talks quite openly implied that there had been Soviet threats of an extremely crude and brutal kind.

To go on with, both sides are now passing out the word that the talks are going very poorly; and both have resumed public polemics. But most important of all, there is the stern fact that the Soviets have chosen this particular moment to create the first new military district established in the Soviet Union since World War II.

Vulnerable Sector

This extraordinary act has received far too little attention. The new Central Asian Command is on the most vulnerable sector of the border, threatening the exposed province of Sinkiang. The commander, Gen. Nikolai Lyashenko, is a superb exemplar of the rule that you cannot know what Soviet military leaders think, but they at least look like Gen. Curtis LeMay multiplied to the third power.

The creation of any new higher headquarters naturally implies the arrival of new troops. Thus it is likely that a new army corps or two will be turning up this winter on the Sino-Soviet border, which the Soviets have already reinforced so enormously in the past two years.

The plain fact is that the Soviet military deployments on the border now show what can only be called a pre-Czechoslovak pattern. This is heavily discounted, of course, by the same analysts who came within an ace of giving the President an official estimate that the Soviets would never invade Czechoslovakia on the very day the invasion occurred.

After the Czech invasion, however, it is folly not to assume that Soviet military deployments mean exactly what they seem to mean. Nor is this potential meaning contradicted by the talks in Peking. The weather will not be favorable for an attack until next spring, and having talked will give the Soviets a propaganda point.

The Chinese Communists, like the North Vietnamese, also appear to expect a Soviet attack; for the most elaborate defensive preparations are being made all over China. As noted, the odds on the Chinese fears being confirmed are no better than even. But surely those odds are quite ugly enough.

The Buck Goes West

By C. L. Sulzberger

LONDON.—The policy of "Vietnamizing" the hot war in Southeast Asia seems to be increasingly mirrored by a policy of "Europeanizing" the cold war in the West. In neither the Orient nor the Occident is Washington deliberately retreating into old-fashioned isolationism, but obviously the degree of American leadership and commitment diminishes.

The assembly of Western European Union, a group representing Britain, France, Italy, West Germany and the Benelux countries, has just considered a study on "the United States and European security." This speculates that one reason for the eventual withdrawal of U.S. troops from this area would be "to encourage the unification of Europe as a means of ensuring its own protection."

It referred to recent suggestions that half the U.S. forces here should be withdrawn because "Western European countries could easily make the extra effort necessary to offset this withdrawal."

The WEU study mentioned American contentions that "the relation between the defense effort of European countries and of the United States was not in proportion to the relative wealth of the two partners; nor to the relative size of their populations." The study said:

"In the long term either there will be an agreement on arms control, which will solve many defense problems, or in the event of no agreement being reached and a future United States administration withdrawing its forces from Europe, federated Western Europe must retain the possibility of creating its own defense force."

U.S. Social Needs

Our allies detect hints of diminution in the U.S. NATO effort and the resulting need to soup things up on this side of the transatlantic relationship. It is conceded that "an attempt is being made to improve social conditions in the United States" and "a reduction in the defense budget is necessary."

For five years America has had "no program for increasing the number of strategic weapons beyond the 1967 level—i.e., 1,054 ICBMs and 656 Polaris (or later Poseidon) missiles" (used in submarines).

Allied experts are struck by several points. Three years ago the United States had a three-to-one superiority over Russia in intercontinental missiles (ICBMs). Russia has now caught up while still possessing some 700 shorter range rockets capable of hitting European targets.

One conclusion is that Moscow can now "envisage talks on limiting these weapons" at Helsinki whereas earlier "it could not have negotiated the principle of a freeze from an initial disadvantage of three-to-one." However, new techniques, MIRV multiple warheads and ABM defensive systems might change even this balance so that in both the Warsaw Pact and NATO alliances "the defense effort of the subsidiary countries is relatively less than that of the superpowers."

Our European partners seem to be groping toward the conclusion that Washington is not going to keep its NATO effort at the present level and if they wish to insure continued self-protection they will have to do more to protect themselves just as South Vietnam, in a strikingly different way, is being prompted to do more to defend itself.

Europe A-Force

Quite reasonably the West Europeans would like to increase their contribution by the cheapest effective means and this inspires reconsideration of a Franco-British nuclear force inside NATO. Unfortunately, neither Paris nor London shows much signs of interest and it is not reckoned that Washington would give any particular help.

It is obvious that within the next couple of years the United States will push more and more for greater European responsibility in NATO defense, seeking to "Europeanize" the cold war in the West just as it "Vietnamizes" the hot war in the East. Nevertheless, Europe discusses this with the lack of realism marked by medieval theologians analyzing the number of angels who could stand on a pinpoint.

In South Vietnam it is at least logical to anticipate that a beleaguered nation threatened by an active enemy will help itself, if put to it. There is no similarly compulsive logic here. If Washington is forced by internal political pressures to pretend that this area will assume a larger burden, Washington is wrong.

In a hot war the stake is unpleasantly visible to the victim. However, in a cold war, fat-dripping Europe appears convinced there isn't any real danger and seemingly prefers to gamble on luck and lassitude. Here the buck won't pass.

Letters

Protest in Paris

On Nov. 14, a day of international protest against the war in Vietnam, American citizens demonstrated not only in the United States but also in London, Rome, Berlin, Madrid and elsewhere. In Paris, police regulations having forbidden all street demonstrations, Americans attempted to hold a peaceful meeting in their embassy courtyard. Embassy officials refused to allow this meeting to take place. As a consequence, about 40 Americans, apparently chosen at random, were detained for hours in French police stations, where they were finger-printed and *fichés*. Several hundred more were refused access to their embassy.

On Dec. 2, four representatives of the English-speaking committee of the *Mouvement pour le Désarmement, la Paix et la Liberté* met with Ambassador Shriver and other embassy officials to work out plans for a peaceful meeting of Americans opposed to the war, to be held at the embassy on Dec. 12. A tentative agreement was reached, but on Dec. 5 Consul-General Buell stated that no assemblies would be allowed on embassy property. We deplore this decision.

Foreign embassies throughout the world are considered national territory; the legal right of American citizens to assemble peacefully on their own soil has never been disputed. We are told that such an assembly would violate the "spirit" of a Franco-American understanding regarding the presence in Paris of the peace talks, and according to which, in the name of French neutrality, demonstrations on the Paris streets are forbidden as long as the talks continue. We find this reasoning specious. Such a demonstration would not disturb Paris traffic, there would be no risk of violence: no extraordinary pressure would be brought to bear on the now reduced American negotiating team. In short, French neutrality would not be compromised.

American diplomats cannot but realize that the only reputable element of our government's conduct of this war has been its toleration of dissent. By and large, the traditional rights of free speech and peaceful protest have been respected in the United States. We see no reason why these rights should be denied in Paris.

The U.S. Embassy says:

The "traditional rights of free speech and peaceful protest" to which the above letter refers are being respected by the U.S. Embassy in Paris even though the situation here is not comparable to London, Rome, Berlin or any other country.

This city is the site of the Vietnam peace talks and the French government, to assure a neutral atmosphere for those talks, has adopted a policy throughout France which prohibits all public demonstrations on behalf or against any side in this issue. This ban includes not only street demonstrations but any others held in outside areas open to the general public. There have been no public demonstrations anywhere in France since these talks began.

As guests of the government of France and as participants in the Vietnam peace talks, the embassy intends to respect these regulations of the French government while at the same time doing its best to give a hearing to American citizens.

First, the embassy will accept petitions and arrange for meetings with senior officials so that any citizen may have the chance to express his point of view.

Secondly, because French regulations permit indoor private meetings on the Vietnam issue, the embassy has offered and will continue to offer to send an official to such private meeting of Americans to answer questions about Vietnam.

GOP 'Commandments'

Since Vice-President Agnew has seen fit to express his opinion of the opposition's creed, it only seems appropriate that one should set forth the "ten commandments" which to some of us seem to reflect the establishment philosophy:

- Thou shalt have no other *masters* before the gods of the Party (hereafter referred to as the GOP).
- Thou shalt not make unto thee or for others any image not authorized by the GOP.
- Thou shalt *serve* no other cause, for we are jealous gods, visiting iniquity upon the disobedient and their friends.
- Thou shalt not take the names nor any of the sayings of the GOP in vain.
- Thou shalt not refuse to kill when so ordered by the GOP.
- Thou shalt not refuse to bear false witness against thy neighbor when it is for the benefit of the GOP.
- *Thou shalt not steal, for this* is a privilege only of the GOP.
- Thou shalt honor the Pentagon and the police, that thy days may be long upon the land, where the GOP allows thee to stay.
- Thou shalt not labor on behalf of thyself, thy community, or any cause not authorized by the GOP.
- Thou shalt not covet unpolluted air, water, or food. Thou shalt not covet freedom or anything that is not allowed by the GOP.

W.F. DURST.
Leinfelden, Germany.

U.S. and Greece

U.S. efforts to prevent the expulsion of Greece from the European Council are boosting the already strong anti-American winds blowing in Greece.

American policymakers argue that in view of the Soviet penetration in the Middle East, Greece is a vital ally. Wrong, because the Greeks under Papadopoulos will fight as hard as the South Vietnamese under Thieu.

They also argue that the junta may go East if pressed too hard by the West. The problem is that the Greek people, not the junta, may go East if disillusioned by the West to the extent that they must choose between Fascism and Communism. The fanatically anti-Communist junta can hardly switch without popular support.

Fortunately, London, Bonn, Rome, Scandinavia etc., do not follow Washington and through their radio stations are beaming to Greeks the hope of steering between Scylla and Charybdis. Out of 50 representative Greeks which the writer quietly polled, 35 listen regularly to BBC and Cologne and occasionally Moscow, 15 regularly to Moscow and no one ever listens to the Voice of America.

No doubt America wants as much as anyone else to see democracy return to Greece but it is taking the easy way out—tolerating a dictatorship of a kind which is historically destined to fail and leave havoc behind it.

JOHN SFAIRAS.
Athens.

Chaucer's Thing

In his article on 20 1969 books, C. Lehmann-Haupt cited Emerson as the first to advise mankind to "do your own thing." I have nothing against Emerson personally, but on behalf of enlightened trivia fans everywhere, I must point out that he was not the first to use the phrase. Chaucer said it in the 14th century in his "Canterbury Tales": "'No dream,' quoth he, may so mine heart aghast [terrify]/That I will let [delay] for to do my thing(s)'" ("Nun's Priest's Tale," lines 268-269). He also advised the world: "Sufficee unto thy thing, though it be small" (poem entitled "Truth," l. 2). This was all part of Chaucer's general policy "to tellen as it was" (General Prologue to the "Canterbury Tales," l. 843).

This proves, of course, that Chaucer wrote the oldest, established, permanent, floating slang in New York.

International Opinion

From Rhine to Urals

Rather than continue an unrewarding flirtation with France, Moscow has chosen to open a business-like discussion with Bonn. The two countries certainly have much to gain from it, in all fields, as do the satellites of Moscow. Actually, there are hardly more than two losers: Walter Ulbricht . . . and Gen. de Gaulle, whose dreams of a Europe from the Atlantic to the Urals is consigned to oblivion. If a greater Europe is to be born one day, it will expand from the Rhine to the Urals. This is so obvious that Moscow no longer hesitates to criticize Paris for its "too great enthusiasm for Atlantic cooperation." Another pillar of Gaullist policy is thus crumbling. At that rate, soon nothing will remain from Gen. de Gaulle's period in office.

—*From Combat (Paris).*

* * *

From Adenauer to Kiesinger, the Christian Democratic chancellors had been considered as "German Gaullists" who frequently relied on Gen. de Gaulle to plead their cause. What took place in Moscow Monday shows that an era is ending. Western Europe really is entering the post-Gaullist era. Instead of turning toward Paris, the new chancellor in Bonn preferred to address the Kremlin directly . . . Once the Gaullist magic which dazzled France and Europe for such a long time was dispelled, our diplomacy lost the initiative on certain points. This is a lesson in modesty and lucidity.

—*From L'Aurore (Paris).*

Greece and the Council

A regime such as that of the Greek colonels, which has used systematic torture on political prisoners, is not one whose spokesmen can be readily trusted. Any last-minute compromise before the Council of Europe meeting, that the junta has a timetable for elections, should be treated with the disdain it deserves. The junta was given seven months' grace at the last meeting in May. It was told then that if it failed even to begin to restore democracy it would be expelled in December. To this day nothing has been done. Any declaration of a change of mind now must be seen as a cynical expedient to stave off an adverse vote. Who could accept it at face value? If and when the colonels restore democracy, they can be readmitted to the council. The time has come for the council to insist on deeds, not words.

—*From the Guardian (London).*

Seventy-Five Years Ago

Dec. 12, 1894

PARIS—Nicholas II is beginning to manifest his intentions on the subject of the internal policy of his Empire. He will remain an autocrat like his predecessors, and does not seem the least inclined to introduce into Russia even a mitigated constitutional organism; but he will seek the assistance, in all questions but those of foreign policy, of a sort of council of notables, which will exercise control over the administration. On the local level this is a good policy.

Fifty Years Ago

Dec. 12, 1919

DUBLIN—Early this morning police and military authorities armed with search warrants visited all Sinn Fein quarters in the city. Search warrants were also issued good for any part of the country. At the same time a cordon of police and soldiers was thrown around the Mansion House, where searches were made also. During the day a number of Sinn Fein prisoners were taken from Dublin on board a warship and sent to England. Emotions are high on both sides and clashes continue.

Grand finale of Lido revue pays tribute to the Thirties.

Fresh, Fast-Paced Extravanganza at Lido

By Thomas Quinn Curtiss

IS, Dec. 11.—The new do revue, "Grand Prix," its gala premiere in the ious subterranean Venecabaret on the Champs- last night. The er of horses' hooves as the overture, then curtain parts to disclose jockeys astride their ts in a neck-to-neck race track is a treadmill. This ious start sets the tempo show that never slackers ift pace, that never wearies akens, that seems as inistible in its capacity to ain as the copper pot from one of its magicians pours a Niagara.

hing remains of the plumd draggy composity of the shioned Parisian music- Everything is fresh, fast so charged with conus youthful zest that one ts that Ponce de Leon to the wrong place. A bracing modernity is the te, found in the ideas and e performance, in the g of Bob Turk and in gorgeous costuming and by Folco and Fost.

ead of the usual "visit" Montmartre of Toulouse- ec, you are whisked off space and, in the com- of astronaut chorus girls, the moon where Theo lelge skate on the astral instead of the quondam Quarter artist's garret he customary Gaston and ne comically flicking brushes on the giggling models, there is a "Blow- ession in the studio of a magazine photographer— the torrid camera-work be more relevant to "Spanky" than to Vogue or Harper's Bazaar.

There is no stopover in waltz-time Vienna, but the past —the distant past—is not forgotten. Robin Hood and his merry men roam and rob in Sherwood Forest. There is a mounted combat with skillful sword-play at a tournament in the courtyard of Arlingford Castle with the wimples of the attending ladies the size of carnival floats. The high point of scenic splendor is reached in the Aztec temple interlude with its ritual of human sacrifice amid gilded idols and with its walls of burnished gold opening to the sight of a gushing waterfall.

There is another backward glance, too. This one goes back to the now "in" Thirties in a finale salute to the Fred Astaire-Ginger Rogers musical movies. The entire company dances to Cole Porter and Gershwin airs on a vast staircase aflash with colored marquee bulbs.

As usual, Pierre Louis-Guérin and René Fraday have interspersed the luxurious production numbers with excellent and unique "specialty" acts. There is Francis Brunn, the remarkable juggler of quicksilver action and matador agility. There is Fred Roby, an intriguing ventriloquist, with his yapping, talkative white poodle puppy doll and his raggy gamine chanteuse dummy, who insists on a swig from the cognac bottle before singing "Parlez-moi d'Amour." Then she renders it in piercing voice while her master smokes a cigarette, yawns and places a handkerchief in his mouth. There is spirited tumbling by the Rios, the dancing devils from the Argentine, and a droll act by Milo and Rogers, a beturbaned magician of Phil Silvers aspect, and his stooge. The blonde German singer Marlene Charell and Anthony Wallington are the principal songbirds and the Bluebell Girls and Lido models never looked lovelier.

"Grand Prix" is a spectacle of champagne sparkle and theatrical symmetry. An extravaganza of beauty, taste and clever talents, it demonstrates that the revue may be transformed into an art of the modern stage.

Ludmilla Tcherina and Salvador Dali at premiere.

Gala Night for Gypsies

By Hebe Dorsey

PARIS, Dec. 11.—Tout-Paris, still on a terribly costumey kick after the recent Oriental ball, did a gypsy encore for the Lido premiere last night.

This time, the men got a break. They wore black tie. But the women went into a big hoopla of bandanas, gold sequins, fans, flamenco frills, black curls and naughty red roses tucked behind the ears.

The Duchess of Windsor was in a red Saint-Laurent, and only mildly gypsy. She arrived escorted by Maurice Chevalier. They shared the center table with a black and white flamenco dancer (Baronne Guy de Rothschild), Françoise de la Renta in sequined black and Margot Bory all decked up in gold hoops.

Régine, with red ribbons cascading out of an immense red wig, looked as if she'd be able to read your palm any minute. Brigitte Bardot, who'd look good any old way, was marvellous in a red gypsy dress and black wig. Jane Birkin went for a black wig too and the trickiest now-you-see-now-you-don't kind of décolletés.

A Lido premiere always generates a great deal of excitement. This time Georges Cravenne added a $10,000 surprise. Jeweller Gérard gave away a two-carat blue white diamond that was thrown, together with 149 fake ones, into a basket. Then the 150 number-bearing "diamonds" were carefully distributed to the lady guests. Number 277 won—but the winner, Mrs. Georges Fontec, what a shame, confessed she wouldn't have known the difference.

Top Chefs Pay a Tribute

By Jon Winroth

PARIS, Dec. 11.—"I wouldn't want to be in the chef's shoes tonight!" was the remark everyone kept repeating last night at the Orée du Bois, a large, elegantly rustic restaurant-cabaret on the edge of the Bois de Boulogne.

No wonder, François Benelli had the enormous responsibility of feeding a veritable galaxy of Michelin-starred restaurateurs belonging to the Association des Maitres Cuisiniers de France.

At the tables, dozens of single stars from every corner of the country surrounded three- and two-stars constellations such as Charles Barrier of Tours, Paul Bocuse of Lyons, Jean Troisgros of Roanne and Georges Garin and Robert Monassier (La Bourgogne) of Paris.

The consensus of these exacting guests was that Mr. Benelli acquitted himself very honorably, if unspectacularly, with 110 dinners consisting of a generous assortment of raw shellfish, rib roast of beef, cheese and pineapple sherbet.

With a judicious blend of altruism and promotion, G H. Mumm and Co. footed the bill for the champagne-washed dinner and floor show, in honor of 18-year-old Jean-Paul Godard, elected "the best apprentice chef of France" by the association.

Each year, with the laudable purpose of maintaining French culinary traditions by bringing attention to promising young kitchen hands, the 200-odd members gather in Paris to select the best among the dozen finalists who survive a series of local and regional eliminations.

This year's winner is from Armand Perreard's Hôtel Ombremont at Le Bourget du Lac, and he can probably look forward to a very successful career Five years ago, Daniel Meteri, then with the Troisgros brothers, was elected to this honor, and he is now *chef saucier* at Maxim's.

Lyons Opera Director—A Standard Bearer

By David Stevens

LYONS, Dec. 11.—"Opera in France today is exploited just as it was at the beginning of the century. No art, no discipline, no activity remains so stuck in the 19th century as opera."

With these words Louis Erlo, the new director of the Lyons Opéra, launched into a definition of the problem and his program for changing, even revolutionizing, the situation here. It is not just a local matter, for Mr. Erlo is to a large extent the standard bearer of the French Cultural Ministry's plans for the "regionalization" of music. The newly formed Rhône-Alpes symphony orchestra and a greatly increased subsidy from the national government are part of the package, and the city has helped considerably by making the Opéra a municipal institution, rather than merely a concession.

But Mr. Erlo, an animated and energetic 40-year-old with an evangelical belief in lyric theater as a contemporary art, is the key man. A native Lyonnais, he has for 20 years been the principal stage director under the previous administration of his uncle, Paul Camerlo, winning wide recognition for his stagings here, simultaneously pursuing an international career as an operatic *metteur en scène*, and generally giving nepotism a good name.

Tradition Not Enough

But good, traditional opera has not been enough.

"In September we conducted a poll in the streets of Lyons, and it showed that 95 percent of the Lyonnais don't feel at all concerned with the Opéra and consider it old fashioned," Mr. Erlo went on. "During my 20 years here we have had many excellent productions, but the young people did not come."

His campaign to change this is being staged on two fronts. One is to organize an audience among groups and young people in the manner already proven by the Théâtre National Populaire and complement this with low prices. The other is a repertory that depends heavily on new works and 20th-century composers rather than 19th-century classics.

"The city has made great efforts, and the seats are very cheap," he said. The price of 20 francs for the best seats becomes 15 francs on a subscription for three productions or more, or 10 francs on a group subscription, or 8 francs for persons under 18. Each work is mounted and performed seven times before mounting the next, "so we can put all our efforts on at a time.

Louis Erlo

"My colleagues and I have spoken at schools and universities and given demonstrations with musicians and dancers. This week I am going to the Faculté des Lettres to give a program on 'Wozzeck,' which we are doing in January, to 300 or 400 students.

Much To Do

"Some of the *collectivités* are already well organized because of Roger Planchon and his Théâtre de la Cité and other theaters, but there are others that haven't been reached yet. There is lots to do, and we need time for the word of mouth to take effect. The Lyonnais are not very sensitive to posters or advertising.

"Also, we have an old house opposite the Hôtel de Ville," he said, gesturing toward the window and the city's imposing 17th-century city hall, "and some young people are a little leery of coming down here.

"As for the repertory, I have been accused of being too avant-garde. But even during this first part of the season devoted to new works, there have been two *créations*, Kosma's 'Les Hussards' and Claude Prey's 'Jonas,' but the others—Dallapiccola, Ravel, Stravinsky—are 30, 40 or 50 years old, and we are doing 'Wozzeck,' 'Carmen' and 'The Flying Dutchman,' all classics.

"I want the repertory to be even more avant-garde—it is necessary to make this big step toward a public that does not come. We must take the first step, then we can be retrospective. The youth who has seen new opera here, who knows that opera can be contemporary theater, will come to see Monteverdi or Gluck. If I did Monteverdi now no one would come."

Mr. Erlo admits that progress is slow. For "Les Hussards" the houses were not too good, while for the current bill of "Jonas" and Ravel's "L'Heure Espagnole" they are noticeably healthier, especially on the weekends. The list of subscribers is already up from 400 last year to 4,500, while their average age has been cut in half from the previous 60 to 65.

"But," he said, again stressing the work to be done, "the goal is 13,000."

BOOKS

'Where Nightmare and Vision Coexist'

AUDUBON: A VISION. By Robert Penn Warren. Random House. 32 pp. $4.

Reviewed By Chad Walsh

WHETHER he writes novels or books of poetry—Robert Penn Warren has eight of each to his credit—they have the same unmistakable tang, the slightly corrupt smell of Warren country, where Original Sin enters into dialectic with a pristine quest of innocence and fulfillment.

"Audubon: A Vision" is a short book, and a haunting one, catching as it does the life of the strangely wonderful immigrant from the West Indies whose life's center was the birds of North America. In seemingly rough-hewn lines we meet the young man who "was only/ Himself, Jean Jacques, and his passion," and are asked, "what/ Is man but his passion?" We see dawn "Redder than meat" and a large bird moving "In a slow calligraphy." And Audubon "thinks/How thin is the membrane between himself and the world."

The longest episode, which might well be the beginning of a Warren novel, is called "The Dream He Never Knew the End Of," and recounts the arrival of young Audubon at a slovenly log cabin, where he spends the night in the company of a wounded Indian, a sluttishly beautiful woman, and her two sons. The air of evil and menace is thick; this is the archetypal cave from which nightmares steal into the consciousness. And when the lynchers arrive to do away with the family, they represent not a negation but an amplification of mood.

Other episodes treat Audubon and his growth in self-awareness more briefly; we see him against a changing screen of birds, and moving among high and low who know his talents as a painter. Somehow the sense of the irreducible mystery of a man's identity deepens as the pages of Audubon's life are turned; he comes to say to himself, "I do not know my own name." At the last, we see him sleeping beside his tidy wife at a time of life when "the fiddle/Soon lay on the shelf untouched, the mouth-piece/Of the flute was dry, and his brushes." Audubon's final summation is perhaps that of the poet:

> . . . a world which though wicked enough in all conscience is *perhaps* as good as worlds unknown.

In Warren there is something of Homer the story-teller, something of Dante moving through wildernesses of innocence and evil. If this were an age of the verse epic, he might be its Virgil or Milton. As it is, he writes novels that read like epics, and poems that read like fragments of novels. He haunts the reader on a disturbingly deep level, where nightmare and vision coexist in the same image and moment.

Chad Walsh is writer-in-residence at Beloit College. His fifth book of verse, "The End of Nature," was recently published. He wrote this review for "Book World," literary supplement of The Washington Post.

J.K. Consolidates Gain n International Trade

By John M. Lee

NDON, Dec. 11 (NYT).— n consolidated its impressive mio recovery with a $28.8 mil- merchandise trade surplus in nber, the government reported It was the fourth consecu- nonthly surplus.

the House of Commons, Labor ers showed unrestrained de- when Prime Minister Harold n read off the figures. Mr. n has been reveling for weeks assertion that Britain today ne of the strongest trade posi- in the world.

pound sterling responded a 7-point rise following a ng decline and closed at $2.- 3969 on a technically unfavorable day. The close yesterday was $2.- 3970. Both the stock market and the government bond market showed good gains.

The good cheer arose from the recollection that even in the best of times Britain has hardly ever earned a surplus on merchandise trade. The usual pattern is a merchandise trade deficit offset by a surplus on "invisible" trade in financial services, such as overseas investment, shopping, insurance and tourism.

But for the past four months, the merchandise trade account has been in the black even before the invisible surplus is added in. The Central Statistical Office estimates the invisible surplus to be running at about $96 million a month.

"The recent run of trade figures indicates that the high rate of exports has been maintained with a continued upward movement, while imports have remained fairly steady," the Board of Trade said.

"The current account of the balance of payments continues to be in substantial surplus."

Devaluation Credit

The improvement from years of deficits is credited to the devaluation of November, 1967, deflation at home and a trade boom abroad.

The big turnaround in the monthly trade figures came in August when a $98.4 million merchandise surplus followed a July deficit of $88.8 million. However, the figures were distorted by factors affecting the under-recording of exports, and the corrections bunched up in August.

The Board of Trade said these distortions had been ironed out and were negligible in the November figures.

The $96 million surplus in August was followed by surpluses of $62.4 million in September and $12 million in October. The average surplus over the past three months was $36 million a month, compared with an average deficit of $16.8 million in the preceding three months.

Exports in November on an FOB (excluding freight) basis rose $7.2 million to a seasonally adjusted total of $1.49 billion. Re-exports were steady at $53 million. Imports, priced on a CIF basis (including insurance and freight) declined $2.4 million to a seasonally adjusted level of $1.65 billion.

Over the past three months, exports showed an average monthly gain of 3 percent over the previous three months. Imports rose only fractionally.

The apparent discrepancy of a reported trade surplus while imports exceed exports is explained by the fact that the trade balance is computed on a balance-of-payments basis.

Accordingly, favorable adjustments totaling $137 million were made, reflecting, among other factors, deductions of freight and insurance costs from import figures and the addition to imports of ships built and delivered abroad to British owners.

A fillip to Britain's improving trade position was added today by the report that in even the raw figures November exports of $1.6 billion exceeded imports by $7.4 million. The last time this happened was in November, 1966, when imports were artificially depressed by a surcharge.

The calculation of the visible trade balance excludes progress payments made in connection with the purchase of U.S. military aircraft and missiles. These are financed separately by special American credits.

rance's Trade eficit Narrows

RIS, Dec. 11.—Imports and ts fell in France last month, wing the trade deficit to million from October's $172.9 n outflow, the Finance try reported today.

ports, down 10.4 percent, d $1,394 billion while ex- off 9.9 percent, stood at billion.

e coverage of imports by ex- was 91 percent compared with rcent in October. Due to in- ce and freight cost differen- in import and export prices, rade balance is considered in brium when exports cover 93 nt of imports.

government has said that rade deficit would steadily e through the first half of year and that by July imports exports would be in balance.

ice of Gold Stages in Across Europe

NDON, Dec. 11 (AP).—The of gold rallied on Europe's markets today extending the ery that began yesterday.

London the price was fixed $5.175 an ounce this morning, 5 cents from yesterday after- and 17.5 cents from yesterday ing. This afternoon, it went gain to $35.20, for a 15-cent on the day.

same pattern emerged in . Gold was selling there morning at between $35 and an ounce, compared with a of $34.95 to $35.15 last night. sed at $35.17 an ounce.

CUTS VISIT SHORT—U.S. Treasury Secretary David M. Kennedy, right, shown above with French Finance Minister Valéry Giscard d'Estaing, returned to Washington Thursday and cancelled his scheduled visit to Rome. Mr. Kennedy, who attended the NATO meeting in Brussels last week, remained in Europe to discuss international economic and financial matters with central bankers and finance ministers. Treasury Undersecretary Paul Volcker will go on to Rome while Mr. Kennedy returns home for discussions on the proposed tax reform bill.

Foreign Bank Account Bill Gives Nixon Team Problems

By Jan Nugent

WASHINGTON, Dec. 11 (WP).—The Nixon administration is having trouble developing a unified position toward a bill to regulate use of secret foreign bank accounts.

Yesterday, a Treasury Department official testifying before the House Banking Committee refused to endorse the legislation, which a Justice Department representative backed last week before the same panel.

Eugene T. Rossides, Assistant Treasury Secretary for enforcement and operations, said the administration supported the bill's objective, but not its methods. He indicated a special task force would make recommendations to Congress on the matter within two or three months.

Last week, Assistant Attorney General Will Wilson replied in the affirmative when directly asked whether the Justice Department favored the legislation. Mr. Wilson was not available for comment yesterday.

The bill, supported by 21 of the committee's 30 members, would impose reporting requirements on U.S. residents and commercial banks doing business with foreign financial institutions which operate under secrecy laws.

Testimony before the committee has indicated growing numbers of Americans use secret foreign bank accounts to avoid taxes, manipulate stock prices and conceal other illegal conduct.

Mr. Rossides assured the committee he was "reflecting the sentiment of the administration." He explained that Mr. Wilson's earlier testimony should be interpreted as supporting the bill's purpose, "but not necessarily its present form."

The bill would impose mountainous and burdensome record-keeping provisions on banks, Mr. Rossides explained. In its present form it "goes too far," and needs "additional work" he continued.

The legislation, which has gone through 14 drafts, was prepared by committee staffers working with officials from the Justice and Treasury Departments.

The Internal Revenue Service has also jettisoned its original statement of general support for the bill and presented a new one more closely paralleling Treasury's position, sources close to the committee said.

Several other government agencies, which had indicated their support, are now expected to modify their positions.

U.S. Eurodollar Use Swings Up

WASHINGTON, Dec. 11 (Reuters).—Eurodollar borrowings by U.S. banks swung upward in the week ended Dec. 3 following a decline the previous week, the Federal Reserve reported.

Liabilities of U.S. banks to their overseas branches rose by $195 million in the latest week after dropping off by $154 million the week previous. The latest increase brings total liabilities in Eurodollar borrowings to $15.09 billion.

Leasco Net, Revenues Go Up in 1969

AMK Corp. Profit Up, Reflecting Acquisition

NEW YORK, Dec. 11 (NYT).—Leasco Data Processing Equipment Corp. realized a 60 percent increase in earnings in the fiscal year ended Sept. 30, the company's report disclosed yesterday.

Net income rose to a record $43.9 million, or $2.71 a share, from $396 million earned in the previous fiscal year. Revenues rose to $452 million from $396 million.

The profit gain rate was, however, cut from the 82.5 percent runup in the first nine months of the year.

The report also listed a breakdown of the various subsidiaries. Net income from computer, consulting and leasing services, for example, was reported at $10.15 million or 65 cents a share, almost double the prior year's $5.19 million or 57 cents a share on fewer shares outstanding.

Net income from insurance operations was $16.55 million, or $1.01 a share, against $15.21 million, or $1.02 a share, on fewer shares outstanding. Net gains on investments rose to $17.23 million, or $1.05 a share, more than double the $6.99 million, or 47 cents a share, derived from this source in the former fiscal year.

Revenues from insurance activities amounted to $350.95 million, compared with $334.22 million in the former year.

AMK Corp.

Operations of AMK Corp. in the year ended Oct. 31 resulted in earnings of $28.65 million, or $3.70 a share, including results of United Fruit Co. for the first time.

After deducting $2.65 million extraordinary charges resulting from the impact of Hurricane Francelia on United Fruit earnings, the net income for the 1969 million came to $11.17 million.

In the previous fical year, which does not include United Fruit results, the earnings from operations were $7.17 million, or $1.44 a share. Net income after including an extraordinary gain of $4 million came to $11.17 million, or $2.25 a share.

Net sales and other income amounted to $1.5 billion compared with $861.94 million, excluding United Fruit, in 1968. Sales and other income reflect 100 percent of United Fruit's operating results in fiscal 1969 while income reflects only AMK's proportionate share of United Fruit's earnings 9 percent for the first three months and 83 percent for nine months ended Oct. 31, 1969, the report notes.

Stock Prices Ease in Late Trading

By Vartanig G. Vartan

NEW YORK, Dec. 11 (NYT).—Prices on the New York Stock Exchange ended on a mixed note today as the cross-currents of tax-selling and tax-switching continued to affect the market.

Meanwhile, Wall Street analysts noted that although tax-loss selling can extend until the final session of 1969, the pressure on stock prices from this source should be lifted for the most part by Christmas.

Dow Index Dips, But Others Gain

Some brokers are expecting a year-end rally.

Standard Oil (Ohio), the most active issue, sold markedly lower for the second straight day. It fell 4 3/4 to 75 1/4 after dropping 9 3/4 yesterday as the biggest lower in that session. Sohio had sold at a high of 119 7/8 in September.

The two-day decline in Sohio followed a company statement on the prospect for earnings over the next three years after its proposed merger with the U.S. operations of British Petroleum.

Overall earnings for 1970, Sohio noted, are expected to be higher than this year.

Gainers on the active list include General Motors, up one point to 67 1/4, and Chrysler, up 1 1/8 to 35 3/4. Both rebounded after selling earlier this week at their lowest prices since 1967. Recent weakness in auto issues has reflected some production cutbacks.

The Dow Jones Industrial Average, showing only narrow changes throughout the session, finished at 783.53 with a token loss of 0.46. This put the blue-chip barometer a shade below Tuesday's close of 783.79 and thereby represented a new low since October, 1966.

However, the NYSE index added 0.04 to 50.51 and Standard & Poor's 500 tacked on 0.04 to 90.52.

Utility-stock averages moved higher, but the rail averages displayed a further slide.

Volume on the Big Board contracted to 10.43 million shares, or somewhat below the turnover for an average session this year, from yesterday's 12.59 million shares.

Glamour issues were buoyant in morning trading, but later gave up their best gains. Memorex ran up 4 1/4 to 161 3/4, but National Cash fell 3 to 147 and losses of more than two points appeared in Burroughs and Texas Instruments.

Schlumberger dropped 3 1/8 to 89 1/8. It plans to acquire a French electrical company through an exchange of stock.

The broad statistics showed an improvement over yesterday. There were 641 advances and 676 declines, compared with a 5-to-8 ratio in the preceding session.

Six stocks posted new 1969 highs, while 196 issues traded at new lows. Yesterday, when there were 351 new lows, Searle was the lone issue reaching a new high for the year.

Computer and glamour stocks were mixed. Memorex rose 4 1/4 to 161 3/4 and University Computing gained 1 at 101 3/4.

Litton added 3/4 at 38 3/4 in active trade after its recent slump following a lower profits report.

Polaroid lost 1 3/4 to 126 after it reported a licensing agreement with Eastman Kodak. Kodak lost 3/8 to 74 3/4.

Denny's Restaurants added 3/8 at 19 7/8. The Nevada Gaming Commission gave approval for purchase of two casinos by Denny's.

GE Sees Strike Wiping Out Earnings in Fourth Quarter

NEW YORK, Dec. 11 (NYT).—The strike against General Electric Co. has probably wiped out fourth-quarter earnings, Fred J. Borch, chairman, told the New York Society of Security Analysts at a special meeting yesterday.

"While I will not make a specific prediction as to the year's earnings—for the duration of the strike is still a matter of conjecture—I can say that we will probably produce very little, if any, income in the last quarter of this year," he said.

He noted that while the strike had only started on Oct. 27, October earnings had been adversely affected by slowdowns and other labor difficulties beginning earlier that month.

GE earned $357 million, or $3.95 a share, on sales of $8.38 billion in 1968. It reported earlier sales of $8.5 billion and net income of $259 million, or $2.86 a share, for the nine months ended Sept. 30.

"We have told the unions that the new offer we made last weekend—and which is now on the bargaining table—represents our best judgment of the maximum economic package that GE can make, consistent with the carrying out of sound mangement responsibilities. We do not intend to offer more."

The GE chairman charged that "only recently" has the union coalition shown any inclination to conduct "really serious discussions" on the economic issues. He added that even if the strike ended today there would still be some unpredictable carry-over effects in the first quarter of 1970.

In answer to a question, Mr. Borch said that 25 to 30 percent of GE's normal production was still "going forward."

Mr. Borch noted that GE Information Systems Italia, a wholly-owned operation, is now in the black, while Bull-General Electric in France has "trimmed its losses substantially" in the last two years and is "rapidly approaching profitability."

Talks Broken Off

NEW YORK, Dec. 11 (Reuters).—John Shambo, chief negotiator for the International Union of Electrical Workers, said in a letter to GE today that the IUE is "recessing our meetings," because "the union's negotiating committee refuses to be part of a hoax you are perpetrating on your employees by creating the false illusion at our meetings that any real bargaining is going on."

GE promptly called the IUE walkout a "disgraceful performance" and charged that it "indicates clearly that their intention is to carry on a vendetta against General Electric, regardless of the merits of our proposals and the economic realities in the nation today."

U.S. Retail Sales Decline in Month By $250 Million

WASHINGTON, Dec. 11 (NYT).—Preliminary estimates showed a decline of about $250 million in retail sales in November, the Commerce Department reported yesterday, tending to confirm the general picture of flat retail sales since early this year.

The estimate for November sales was $29.35 billion, down about 1 percent from the October figure, which was revised upward last week to a record $29.61 billion. All figures seasonally adjusted.

The November figure was about 2 percent above sales in the same month a year ago. Prices have risen by more than that in the same period, although there is no specific price index for retail sales as such.

The department said that total durable goods stores sales in November totalled $9.15 billion, against October's $9.32 billion and $9.31 billion in November, 1968.

The department's preliminary estimate showed that sales of nondurable goods stores amounted to $20.195 billion in November, compared with $20.285 billion in October and $19.492 billion in November, 1968.

Gold Found in Ukraine

MOSCOW, Dec. 11 (Reuters).—Gold has been found for the first time in the Ukraine, the Soviet news agency Tass reported today. Geologists found gold nuggets in the Ivano-Frankovsk region and gold ore with a metal content of 35-50 grams per ton of rock in the Transcarpathian region, Tass said.

Courts Take Action on U.S. Merger Moves

By Leonard Sloane

NEW YORK, Dec. 11 (NYT).—Court actions involving merger or control situations made news yesterday. They were:

● A Court of Appeals reversed a 1968 decision of a District Court judge that could lead to the possible cancellation of the merger between Westinghouse Air Brake Co. and American Standard Inc.

● Heli-Coil Corp. brought an action against Mite Corp. and its investment bankers asking that Mite be restrained from voting its Heli-Coil stock and that it be required to divest the shares.

The Air Brake-American merger last year was challenged by Crane Co.—a plumbing supply competitor of American that vied with it for control of Air Brake. Yesterday the appeals court here reversed the lower-court judgment that dismissed a claim of market manipulation and deception.

"Remedies may include damages, if any, prospective injunctive relief, as well as appropriate retrospective relief, notwithstanding the consummation of the transaction cannot be allowed to preclude any relief for violations of the securities laws."

The appeals court said that "we do not suggest that such a drastic result as divestiture or separation must necessarily be reached in this case."

But the three appeals judges remanded it to a N.Y. court "for a further determination . . . of the appropriate remedies."

The merger of Air Brake and American became effective June 7, 1968—two days after Crane's suit seeking to enjoin stock transactions that led to the merger was dismissed. Crane had first proposed to merge with Air Brake on May 15, 1967, by buying its stock, but by November of that year Air Brake told Crane that it did not want to discuss any merger.

The Court of Appeals affirmed the district court's dismissal of Crane's claim that Air Brake's proxy statement misrepresented American's 1967 operating earnings and net income. But it did find "inherent unfairness and deception" in American's 1968 dealings and ruled that the company violated Securities and Exchange Commission regulations requiring accurate disclosure of "material information."

Thomas M. Evans, chairman of Crane, said after the appeals court ruling was announced, that the firm is "now entitled to substantial damages and to seek possible rescission of the merger and divestiture. Crane intends to pursue all of its remedies to the fullest."

The Heli-Coil suit alleges that Mite, Model Roland & Co., and E. M. Warburg & Co. engaged in deceptive and manipulative practices in connection with Mite's recent offer to acquire Heli-Coil shares. It also claims that they induced and attempted to induce other persons to purchase Heli-Coil and Mite shares on national securities exchanges while the exchange offer was outstanding.

Mite To Accept

NEW HAVEN, Conn., Dec. 11 (Reuters).—Mite Corp. said today it expected to accept 315,000 shares of the 250,000 shares recently tendered to it by Heli-Coil stockholders.

This would give Mite slightly over 50 percent of the outstanding Heli-Coil stock, the firm said.

Ford Werke AG Recalls Capris

COLOGNE, West Germany, Dec. 11 (AP).—Ford Werke AG, West German subsidiary of Ford Motor Co., has notified owners of 51,000 Capri models to call on Ford dealers for a free-of-charge braking mechanism checkup, the company said today.

The checkup affects Capri models built by Ford Werke before Oct. 15 and only those equipped with a power brake system. It involves 33,500 cars delivered to German customers and 18,000 exports, the company said.

The checkup is needed because the brake pedal on some of the cars returned to its original position too slowly after being depressed, Ford Werke said.

N. American Rockwell Sets Expansion Plans

LOS ANGELES, Dec. 11 (Reuters).—North American Rockwell Corp. has launched an expansion program of more than $100 million through 1971 for its automotive divisions "to keep pace with the rising demand for its products," the company said in its annual report.

Some $60 million is involved in addition to various machine tools and equipment plants, and a technical center. Additional projects, totalling more than $40 million, are in the planning stage, the company said.

Automotive component sales in fiscal 1969 rose 14 percent to $554 million, the firm said.

CAB Examiner Hits Discount Loss

WASHINGTON, Dec. 11 (Reuters).—A Civil Aeronautics Board examiner has recommended that Atlantic air fares which eliminate the round-trip discount be found adverse to the public interest and should not be approved by the board.

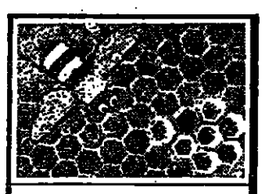

Examiner Arthur Present, ruling on the International Air Transport Association's agreement, said the bulk fare provisions of the agreement were in the public interest and should be retained. The examiner's recommendations are subject to review by the full board.

The IATA airlines flying the transatlantic route had discontinued their discount—about 5 percent of two one-way tickets—on round-trip tickets.

U.S.-German Company

LONDON, Dec. 11 (Reuters).—Brown, Boveri and Cie. AG of Mannheim, and the York division of Borg-Warner Corp., Chicago, say they have agreed to form joint manufacturing and marketing companies for commercial and industrial refrigeration and air-conditioning applications. The new companies are to be based in Mannheim.

The "no-haste" Cognac

We French take our time. In life. With eating and drinking. And especially with our Cognac. Do as we do. Take your time about living. Just relax.

Take a Cognac Bisquit. This Cognac doesn't know haste. We have always taken our time with it. Maybe even a little too much. Eh bien. But this may just be the reason why it became such an outstandingly good Cognac.

Connoisseurs call Cognac:

Bisquit

From left to right: MARTINI & ROSSI "Tonic": In a tall glass, one measure Martini & Rossi Sweet over ice. Fill with tonic water, add lemon slice • MARTINI & ROSSI "On The Rocks": Over ice, pour Martini & Rossi Sweet. Add twist of lemon • MARTINI & ROSSI Extra-Dry vermouth-"by itself": Pour Martini & Rossi Extra-Dry vermouth over some ice. Add twist of lemon.

z—Sales in full.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

a—Also extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. d—Declared or paid in 1969 plus stock dividend. e—Paid last year. f—Payable in stock during 1969, estimated cash value on ex-dividend or ex-distribution date. g—Declared or paid so far this year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1968 plus stock dividend. t—Paid in stock during 1968, estimated cash value on ex-dividend or ex-distribution date.

cld—Called. x—Ex dividend. y—Ex dividend and sales in full. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww—With warrants. wd—When distributed. wi—When issued. nd—Next day delivery.

vj—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by equalization tax.

Year' high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 25 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

z—Sales in full.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

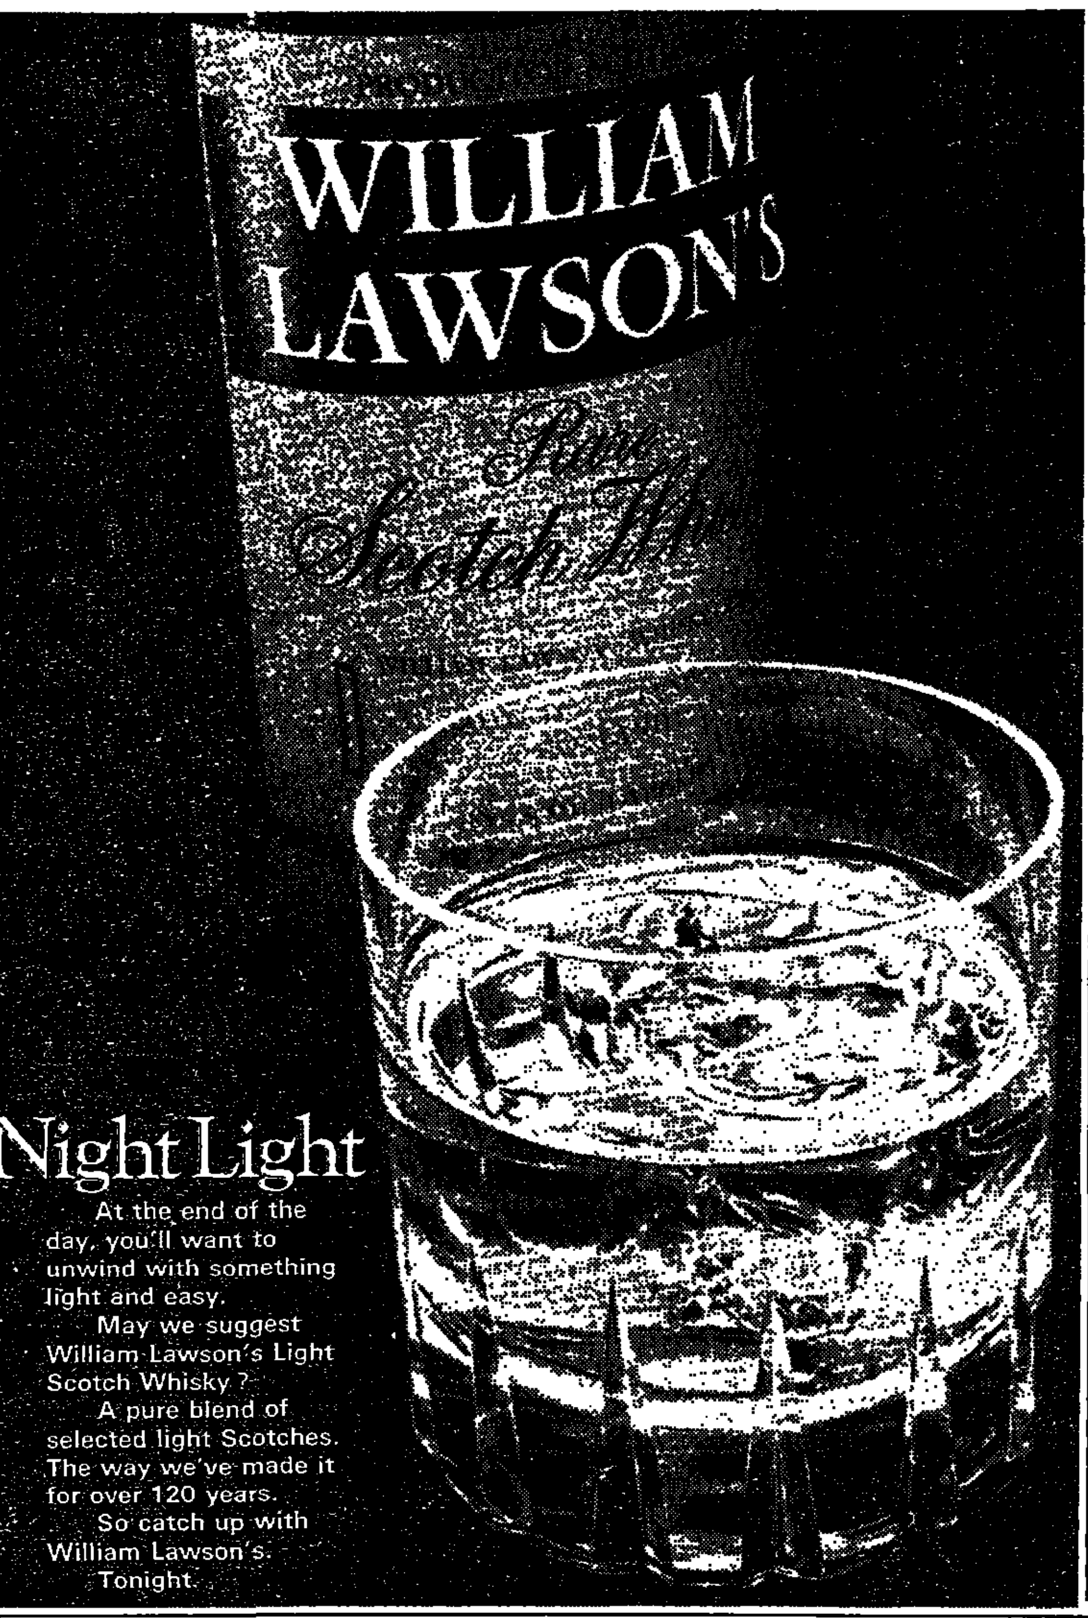

a—Also extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. d—Declared or paid in 1969 plus stock dividend. e—Paid last year. f—Payable in stock during 1969, estimated cash value on ex-dividend or ex-distribution date. g—Declared or paid so far this year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1968 plus stock dividend. t—Paid in stock during 1968, estimated cash value on ex-dividend or ex-distribution date.

cld—Called. x—Ex dividend. y—Ex dividend and sales in full. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww—With warrants. wi—When issued. nd—Next day delivery.

vj—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies. fn—Foreign issue subject to interest equalization tax.

Year's high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 25 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

PROBLEM?

LOOKING FOR A DIVISION MANAGER VP EUROPE?

Our client is currently a general manager for one of the top ten American companies in Fortune magazine's listing.

Ivy League chemical engineer, under 35, who is exhibiting spectacular growth rate and business achievements.

Currently all marketing, manufacturing, engineering, sales, R&D, finance functions report to him in a 20 million dollar plus operation for which he has profit and loss responsibility. Previously his most recent assignment was Marketing Director-Europe for two years where he resided and worked as the only American with nationals. Marketing, Sales, Advertising groups were organized from scratch. Result: 200% increase in sales each year.

His world-wide experience includes venture analysis, establishment of joint venture companies and corporate shells in Europe and Japan, marketing, sales, product and process development in the chemical and plastics industry.

Current compensation for this unusual industrial contributor including incentive stock programs exceeds $35,000 per year.

Please write to: Box D 1.577, Herald, Paris.

BRIDGE

By Alan Truscott

East opened with one heart in second position and his partner responded one spade. North jumped to two no-trump to show length in the minor suits. He could have conveyed the same message by bidding one no-trump, but with the vulnerability in his favor, he could afford the jump.

East passed and South's hand was worth a jump to four clubs. West bid the spade game, which would have failed by at least one trick. However, North continued to five clubs and was somewhat surprised when nobody doubled.

An opening spade lead would have defeated the club game, but it was hard for West to judge that and he led the heart jack. This was ducked by East, and South won with the queen. He cashed the ace and king of clubs, and followed with the heart ace to discard a spade from dummy.

The next play was a diamond to dummy's jack, and East false-carded by winning with the king. He shifted to the spade king, and West overtook with the ace. He led a diamond, and South had to judge the position: should he take the normal finesse, or play the ace in the hope of dropping the queen from East.

A careful count of the high cards provided the answer. East had opened the bidding, and his only high cards outside diamonds were the major suit kings. It was a certainty therefore that East held the diamond queen to justify his opening bid. The finesse was doomed to fail, so South put up the ace. He was rewarded when the queen fell, and the game was made.

BOOKS

A DEATH IN THE SANCHEZ FAMIL

By Oscar Lewis. Random House. 119 pp.

Reviewed by Napoleon A. Chagnon

OSCAR LEWIS has combined the best of art and science in this account of how the poor die. Specifically, it is a description of the struggle to get a dead Mexican woman decently into the grave, the financial and emotional hardships sustained by the deceased's three closest relatives, her sister's children. Judiciously, Lewis achieves his goal: the woman's death illuminates her life and both reflect and capture the "culture of poverty" in which she lived.

Guadalupe Vélez was a minor character in Lewis's earlier work on poverty in a Mexico City slum, "The Children of Sanchez." She did, however, play a significant role in their lives at one time by offering them the refuge of her small, dingy apartment when they were destitute. In a culture such as this, one's fortune and luck constantly fluctuate: today one has sufficient means to eat, tomorrow one is in the gutter begging for handouts and a place to sleep. In this situation people help each other, as ritual kinsmen, out of compassion, obligation to repay past favors, sometimes altruistically. Guadalupe represents the culture of poverty more accurately than the Sanchez family did, for they had been much more influenced by Mexican middle-class attitudes and values.

In tape-recorded interviews Lewis made earlier, Guadalupe discusses aspects of her life, simple things that were important to her—religion, working hard for her family, pleasant and unpleasant times with her several husbands, hunger, deprivation and misery. She emerges a rather sensitive, saintly woman. Her childhood was full of hard labor; her married life was tragic; her jobs were progressively worse, from selling spiked coffee to taking in washing. Finally, she came to rely on alcohol and in her old age took in as her comrade and lover a destitute man half her age who treated her badly, worked irregularly, and squandered her few pesos in drink. Unable to afford proper medical attention, Guadalupe died of cancer, alone and in utter poverty. Her total possessions had a value of some $121.13, ranking her just above the poorest of the fourteen families in her neighborhood.

The main section of the book is then told by Guadalupe's dead sister's children, Manuel, Roberto and Consuelo—direct statements, translated from tape recordings made a month after the funeral. It is divided into three parts: the Death, the Wake and the Burial. The children are more or less aware of their hopelessness, the squalor of their neighborhood, the filth, the broken homes that characterize daily life in a Mexico City slum, but only Consuelo seems able to relate it to a larger context:

Life holds no pleasure for me anymore. I expect nothing here in my *tierra*, my own land. Why do we insist on carrying on that absurd masquerade, the gigantic lie that hides the real truth here in this "republic" of Mexico? "We, Mexicans," amid "this prosperous beauty with its politically strong, economically solid foundation..." Oh, yes, we are making progress. We are advancing in technology and science: the steel structures are rising over the country. Everybody knows that the peasants and the poor in the cities are being killed by starvation or other means... they are being weakened, the entire generation is disappearing in an unforgivable fashion. I can no longer bear to see how they are humiliated and how they die.

The perspectives of Consuelo's brothers, on the other hand, seem more egocentric, less concerned with large issues, and preoccupied with immediate. They actually live in a Mexico City slum. Consuelo has managed to escape it and better herself: she has learned stenography and has a regular income from typing outside the city. Her brothers resent this to a certain extent, for they are trapped in a way that she is not.

Guadalupe's funeral cost 500 pesos, far more than the Sanchez children could raise among them. As is customary, the funeral parlor refused to release the body until all of the bill was paid, so the sum was raised by borrowing, begging, selling possessions and taking up a collection at the wake. At the cemetery the priest charged them 30 pesos for a mass and the funeral director demanded another 70 to take the mourners by bus to the grave. The last blow comes at the grave itself, where poor people suffer their final humiliation when they cannot afford a permanent plot. Manuel observes:

There were two big piles of brown earth, one at the head and the other at the foot of the graves. It seems that when they removed someone else's remains out of the same grave, I saw leg bones still in their stockings and a skull which seemed to be smiling ironically at the other body about to go in.

A reviewer can hardly do justice to an Oscar Lewis book for the impassioned observer never really able to capture the force or meaning of poverty in the same way that the poor can in their own words. Lewis's concern is with the universality of the "culture of poverty": All major cities everywhere, he suggests, have their Aunt Guadalupe Sanchezes. One of our statesmen made the point, but less politic, suggesting that one ghetto is like another: if you've seen one, you've seen them all. If this wisdom is predicated on authority then one wonders about our national priorities and why our efforts are equal to the magnitude of the problem.

Mr. Chagnon, a professor of anthropology at the University of Michigan, is the author of Yanomamö: The Fierce People. This review first appeared in Book World, literary supplement of The Washington

Williams Goes to Minnesota, Uhlaender to Tribe

ndians Get Twins' Chance for Tiant

VELAND, Dec. 11 (UPI).— land manager Alvin Dark is ing on a comeback by Dean e next season to justify a today which sent Luis Tiant Minnesota Twins.

Indians sent Tiant and an- right-hander, Stan Williams, e Twins in exchange for e, outfielder Ted Uhlaender, ler Craig Nettles and a player named later. The trade he work of Dark, who has t total control of player nnel.

season, Chance, a 28-year- ight-hander, labored under urden of a sore shoulder and a 5-4 record with a 2.97 run average.

nce, a native of Wooster, was the winner of the Cy Award in 1964 while with alifornia Angels. He led the ican League in shutouts that

was dealt to Minnesota by ngels in 1965 for outfielder ie Hall, first baseman Don

nver Coach Fired

VER, Dec. 11 (UPI).—John ddon, head coach of the fal- American Basketball Asso- Denver Rockets, has been d of his duties. The Rockets ep in last place in the ABA Joe Belmont, director of ing activities and scouting he Rockets for the past 13 s, will be acting coach.

Luis Tiant

Stan Williams

Dean Chance

Mincher and pitcher Pete Cimino. The following year he pitched a no-hitter against the Indians.

Bad Year for Luis

Tiant, 29, who had 21 victories against nine losses in 1968 with a 1.60 ERA, had a disastrous season in 1969. He won only nine games and lost 20 and his ERA ballooned to 3.75.

"I feel Chance's arm is 100 percent okay," Dark said. "He tried to get ready too soon last spring after an injury. He has a lot of pride."

Uhlaender, 29, is expected to provide some help for the Indians' anemic offense. His batting average last season was .273 and he had 62 runs batted in, 18 homers and 15 stolen bases.

Nettles, 25, could work his way into the Cleveland infield. Last season he batted .222 with seven homers and 26 RBIs. Both Uhlaender and Nettles are left-handed batters.

Williams, 33, had a bad year with the Indians last season as a reliever and part-time starter. His record was 6-14 with 13 saves. He finished with a 3.94 ERA.

Killy Wins for TV

PARK CITY, Utah, Dec. 11 (UPI). — Jean-Claude Killy of France successfully defended a television challenge cup race yesterday by defeating Swiss ski pro Stefan Kalen in a slalom race. Killy, winner of three gold medals at the last Winter Olympics, beat Kalen in two straight runs. The action capped three days of television production for a new series entitled "The Killy Challenge."

Tampa Refuses to Rent Stadium for Clay Fight

TAMPA, Fla., Dec. 11 (AP).—The Tampa Sports Authority refused today to rent the city's 48,000-seat stadium for a boxing match between Cassius Clay and Joe Frazier, raising speculation that the fight would have to be called off because no other suitable site besides the Tampa site was available.

The sports authority apparently bowed to strong pressure from veterans' groups and individuals who had called by the thousands to say they opposed having the fight in Tampa.

Promoter Ron Gorton reportedly was looking for another site in Tampa where the fight could be held.

Meanwhile, a Miami promoter yelled double-cross and promised to take his case to court "because the deal was mine."

Bob Arum, an attorney for Clay, said the Miami negotiations were halted without an agreement after it became known that Gov. Claude Kirk of Florida wanted the fight in Tampa, not South Miami.

"Contracts will be signed by the weekend," said Arum. "Clay and Frazier are guaranteed $300,000 apiece, but stand to earn well over one million dollars each, thanks to closed-circuit television."

The Miami promoter, Murry Woroner, said his attorney came to an agreement with Clay's lawyer in New York 48 hours before.

"Everything was settled and a rough contract drawn up," said Irvin Whitman, Woroner's lawyer. "Arum's people were to mail me the contracts—signed by Clay and Frazier—on Tuesday."

Woroner waved a telegram from Bruce Wright, an attorney representing Frazier, that said negotiations were off. The Miami promoter said the wire came Tuesday night.

"If Frazier doesn't fight Clay in Miami, he won't fight anybody anywhere," Woroner said. Whitman added, "Nothing was signed, but our verbal deal will stand up in court, in my opinion."

When informed of Woroner's plans, Arum broke into laughter. "Murry is acting like a child," he said. "Anybody can bring a suit in America, but it won't hold water this time."

Olivares Is 5-2 To Beat Rudkin, Keep Bantam Title

LOS ANGELES, Dec. 11 (Reuters).—Unbeaten Reuben Olivares of Mexico is a 5-2 favorite to defeat Britain's Alan Rudkin here tomorrow night and retain his world bantamweight title.

The champion has one of the best records in boxing history—51 knockout victories in 53 fights, with one victory by decision and one draw.

Rudkin has never been knocked out in 43 fights, five of which he lost on points, but experts here think he will not stay on his feet for the full 15 rounds.

Rudkin is also determined to go for a knockout. "I've lost twice for this title, and both times I was the victim of a hometown decision," the 28-year-old British champion said. "So this time I'm going out to knock out Olivares. And I am sure he is going to try to do the same thing to me."

Rudkin lost title challenges to Lionel Rose of Australia in Melbourne last March and Japan's Fighting Harada in Tokyo in 1965.

Olivares has never been taken to 15 rounds, and has boxed ten rounds only twice in his career. Rudkin has gone 15 rounds five times and usually ends looking stronger than his opponents.

Takes Giant Slalom

Thoeni Gives Italy First Cup Victory

VAL D'ISERE, France, Dec. 11 (AP).—Gustavo Thoeni, a new teen-age sensation from Italy, today won the first men's Alpine ski race of the world championship season, capturing the giant slalom of the Criterium de la Première Neige.

Thoeni was more than a full second ahead of a world elite field from 23 nations to give Italy its first victory in World Cup competition.

Thoeni clocked a total of 3 minutes 1.10 seconds for the two heats. He beat out two French stars, Patrick Russel, who was timed in 3:03.21, and Jean-Noël Augert, who had 3:02.67.

Karl Schranz, Austrian World Cup holder and winner of this race last year, missed a gate near the top of the course on the first run and was disqualified. Another favorite, Henri Duvillard of France, abandoned near the finish of the first heat.

'Go Italy'

The excited Italian team, waving a huge national flag and a banner with "Dai Dai Italia" (Go, Go Italy) whooped with delight as Thoeni flashed through the finish of the second heat in the fastest time of 1:33.17, a full 1.25 seconds ahead of Russel, who had edged him by one-hundredth of a second in the first leg.

Thoeni, an 18-year-old student from the Dolomites village of Trafoi, was virtually unknown until last summer when he turned in some top performances in Australia that put him in the top 15 of the International Ski Federation seedings.

The quiet, young Italian smiled happily as his boisterous teammates hoisted him onto their shoulders and paraded around the finish area.

Billy Kidd was the best-placed American. He finished fifth overall after being in sixth position after the first leg.

The U.S. team was given instructions not to accord interviews with the ABC television network as the dispute between the two parties continued.

The American Ski Association has refused to accept a donation of $15,000 from the network to film the men's and girl's teams in their European races this season and reportedly is asking $65,000.

The International Ski Federation (FIS) has barred ABC from showing the film in America while the dispute is still on. But ABC cameramen swarmed round the course today filming the U.S. skiers.

ABC consultant Bob Beattie, former U.S. team chief, said the films would not be shown until the row is settled.

LEADING FINISHERS

1. Thoeni, Italy	3:01:00
2. Russel, France	3:02:21
3. Augert, France	3:03:67
4. Schnider, Switz.	3:03:25
5. Kidd, U.S.	3:03:32
6. Neureuther, W. Germ.	3:03:83
7. Bleiner, Austria	3:05:68
8. Orcel, France	3:05:98
9. Brechul, France	3:06:55
10. Rofner, Austria	3:06:65
11. Bozon, France	3:06:70
12. Schlager, W. G.	3:06:92
13. Bruggmann, Switz.	3:06:93
13. Sepp Heckelmiller, W. G.	3:06:93
15. Kashiwa, U.S.	3:07:28

Russia to Send Team to World Hockey Title Meet

RIVERS, Manitoba, Dec. 11 (AP). —The Soviet Union, seven-time winners of the world title, ended weeks of doubt last night when it informed the Canadian Amateur Hockey Association that its team would take part in the 1970 world championships in Canada.

The doubt as to Russia's participation was precipitated last month when the Soviet delegation to the International Ice Hockey Federation meeting in Montreal left amid a threat that it would not send a team to the tournament unless changes were made to the schedule.

Other threats followed in telegrams, but the CAHA refused to alter its timetable and informed the Russians that a conditional entry would not be acceptable.

"I'm pleased that by hanging tough we didn't have to make any concessions," said Earl Dawson, president of the CAHA.

"If they hadn't entered, it would have been a hollow victory for whichever team won the tournament."

Canada Warned on Pros

STOCKHOLM, Dec. 11 (UPI).—Bunny Ahearne, president of the International Ice Hockey Federation, said today Canada must play without pro players or lose the right to organize the world championships in Montreal and Winnipeg next March. Ahearne also said that all players participating in the world championships risk disqualification from Olympic tournaments if Canada uses pros.

angers Trounce Bruins, 6-3, tretch Unbeaten String to 14

W YORK, Dec. 11 (AP).—The started moments after Jean e's second goal of the game wrapped up the New York rs' 5-2 National Hockey e victory over the Boston s last night.

re No. 1!" the crowd of screamed, "We're No. 1!"

elle and the rest of the Ran- who are indeed number one e NHL's East Division, heard hant and it was music to ears.

hen they're yelling like that," Ratelle, "I feel the same way We're number one. We eat anybody in this league."

e Rangers have proven that a 14-game unbeaten streak as vaulted them 4 points in of Montreal and 6 points up Bruins in the East race.

ing the streak, the Rangers picked up an increasing nt of momentum. Things con- ly go their way.

ve got the confidence," said e. "We feel we can win game."

ooked, for a while at least, they might not be able to it up against the Bruins. scored first on a power oal by John Bucyk. That as balanced by Walt Tkaczuk's f the year and then Ratelle a disputed goal midway h the second period with uins claiming he had kicked ck into the net.

Bobby Orr tied it again with a spectacular individual effort, stealing the puck, passing it to Phil Esposito and then taking the return pass for his eighth goal of the year. It came with the Rangers enjoying a manpower edge and could have sunk New York except for what happened next.

Ron Stewart, out killing a New York penalty, recovered a loose puck and blistered it past Gerry Cheevers for a 3-2 edge. Then Ratelle and Rod Gilbert wrapped it up with third-period goals.

Canadiens 6, Maple Leafs 3

Montreal was stymied for two periods by 45-year-old Johnny Bower, who was making his first start of the season in goal for Toronto, but then erupted for four goals in the final 20 minutes to beat the Maple Leafs, 6-3.

North Stars 8, Black Hawks 5

Bill Goldsworthy tapped in two rebound goals 11 seconds apart to lead Minnesota past Chicago, 8-5. The victory stretched Minnesota's unbeaten streak to five games and ran the club's record against the East Division to 5-3-3 this season—best of any West team. Minnesota won only four games from the East last year.

Penguins 2, Kings 0

Jean Pronovost scored both of Pittsburgh's goals in the final period and goalie Les Binkley turned in his second shutout of the season, stopping 20 shots, to beat Los Angeles, 2-0.

Blues 3, Seals 3

Red Berenson tallied twice in the third period, enabling St. Louis to deadlock Oakland, 3-3.

NHL Standings

EAST DIVISION

	W	L	T	Pts	GF	GA
New York	16	4	6	38	91	61

Wednesday's Results

St. Louis 3 (Keenan, Berenson 2), Oakland 3 (Dillabough, Ingarfield, Ovadinsk).

Montreal 6 (Savard 2, Rousseau, Cournoyer, Lemaire, Provost). Toronto 3 (McKenny, Walton, Ellis).

New York 5 (Tkaczuk, Ratelle 2, Stewart, Gilbert). Boston 2 (Bucyk, Orr).

Minnesota 8 (Colins, Grant, O'Shea, Parise, Larose 2, Goldsworthy 2), Chicago 5 (Angotti, Martin 2, Nesterenko 2).

Pittsburgh 2 (Pronovost 2). Los Angeles 0.

Clemson's Howard Retires as Coach

CLEMSON, S.C., Dec. 11 (UPI).—Clemson's Frank Howard, the colorful, tobacco-chewing "Baron of Barlow Bend" who had been a head football coach longer than any of his contemporaries, retired yesterday after 30 years on the job.

Howard, 60, an Alabama farm boy whose early ambition was to "go to Auburn and become a chicken farmer," will remain in his role as athletic director.

Howard said his successor has not been chosen. Howard had won more games (165) than all but two of the college coaches who were active in 1969—his long-time friend Bear Bryant at Alabama (193) and Johnny Vaught at Mississippi (177).

Notre Dame Five Routs N. Illinois

NEW YORK, Dec. 11 (UPI).—Notre Dame's basketball team has no school policy banning postseason competition with which to contend. It only has to prove it belongs among the nation's best to play in the NCAA tournament, and so far, the Irish have a good case.

The unbeaten, 16th-ranked Irish, who have played in the NCAA tourney eight times and in the NIT once, rolled to their fourth straight victory last night by routing Northern Illinois, 111-92.

Junior Austin Carr scored 42 points, upping his average to 37.2 and breaking his own record of 37 for a game in the Notre Dame arena.

In other games involving top-20 teams, No. 4 South Carolina outshot East Carolina from both the floor and the free-throw line for a 68-49 victory; No. 10 Villanova crushed North Dakota, 107-57, and No. 18 Colorado swept past Evansville, 97-66.

Calvin Murphy scored 33 points, including five key free throws in the final 42 seconds, to give Niagara an 83-80 victory over Buffalo State.

Arts and Letters U.S. Horse of Year

NEW YORK, Dec. 11 (AP).—Arts and Letters has been named Horse of the Year for 1969 by the Morning Telegraph.

Arts and Letters, a 3-year-old colt racing in the colors of Paul Mellon, was the choice of 40 of the 42 voters.

Arts and Letters also took honors as the best 3-year-old and the top handicap horse as he romped to eight victories, five seconds and a third in 14 races this year. He earned $555,604.

Bradley's Key Baskets Help Knicks Edge Bucks, 97-96

NEW YORK, Dec. 11 (AP).—A furious last-minute finish by Bill Bradley kept the unbeaten streak of the New York Knicks alive against Milwaukee. Baltimore, however, was less fortunate.

While the Knicks were squeaking past the Bucks, 97-96, last night, Baltimore was getting bombed by the Phoenix Suns, 137-107. It was New York's tenth consecutive triumph over Milwaukee since the expansion team entered the National Basketball Association last year. Baltimore was 9-0 over the second-year Suns until last night.

The Knicks, 27-3, and unbeaten in 13 road games, got three key baskets from Bradley in the last two minutes, including the game-winner—a 15-foot corner jumper with 11 seconds left. Flynn Robinson, who topped the Bucks with 30 points, missed on a last-second shot that would have won it for Milwaukee.

Jim Fox of the Suns scored 11 of his game-high 24 points in a third-period barrage as Phoenix sprinted from a 56-54 halftime margin to a 98-81 spread after three quarters.

The Bullets lost high-scoring forward Gus Johnson in the opening minutes of the game with a bruised chest. He is expected back this weekend.

Rockets 126, Hawks 107

San Diego rolled to a 37-23 first quarter lead and was never headed in giving Alex Hannum a 126-107 victory over Atlanta in his coaching debut with the Rockets.

Celtics 111, Lakers 99

Boston, trailing, outscored Los Angeles, 19-4, midway in the third period and rolled to a 111-99 victory over Los Angeles.

Royals 122, 76ers 121

Johnny Green's steal and ensuing basket with 37 seconds left gave Cincinnati a 122-121 triumph over Philadelphia.

NBA Cuts Field For New Teams

CHICAGO, Dec. 11 (UPI).—National Basketball Association owners reduced the number of applicants for new franchises to four yesterday and granted commissioner Walter Kennedy a new five-year contract.

After hearing a report from the expansion committee, the owners declared that bidders from Buffalo, Cleveland, Houston and Portland, Ore., remained in the running to join the circuit next year. The decision was made earlier to add two new teams to the league to increase it to 16 for the 1970-71 season. It was understood the admission price would be about $3 million.

The successful bidders will be determined at the next meeting of the league owners at Philadelphia, Jan. 20.

State Department to Aid Ashe In Getting South Africa Visa

WASHINGTON, Dec. 11 (UPI).—The State Department today pledged to help American Negro tennis player Arthur Ashe obtain a visa to South Africa to participate in a tournament next March.

State Department spokesman Carl Bartch confirmed that Secretary of State William P. Rogers met Ashe and Puerto Rico's Charlie Pasarell during his visit to Paris last weekend.

Ashe, America's top player, and a member of the U.S. Davis Cup team, told Rogers of his intention to participate in the South African Open. Rogers had undertaken to help him.

Bartch said that when Ashe applies for a visa he will have the full support of the State Department, which will make representations to the South African Embassy here or in Paris as well as to the South African government in Pretoria.

South African Sports Minister Frank Waring hinted last week that if Ashe did apply for a visa he would be refused because his purpose was not to play tennis, but political.

In Johannesburg, meanwhile, the South African Lawn Tennis Union formally accepted Ashe's entry for the March event. But the appearance of Ashe in the tournament will depend on whether he can obtain a visa.

SALTU president Alf Chalmers today released a letter which he sent to the United States in reply to Ashe's application, made last month. In it, he told the USLTA: "I wish at once to assure you, on behalf of the South African Lawn Tennis Union, that as we have publicly stated in the past, we would be happy to accept the entry of Arthur Ashe for our 1970 championships. Kindly regard this letter, therefore, as a formal acceptance of his entry."

Davis Cup Term Entered

JOHANNESBURG, Dec. 11 (UPI). —South Africa decided last night to enter the 1970 Davis Cup championships, despite the threat of expulsion from the competition. A meeting of the South African Lawn Tennis Union decided unanimously the republic should again enter a team in the European Zone matches.

Rugby Game Off

LONDON, Dec. 11 (AP).—The English Rugby Union today called off a match between the South Africans and Southern Counties, scheduled for Jan. 28 at Bournemouth, because police could not guarantee protection from anti-apartheid demonstrators. A spokesman for the union said a new site is being sought.

Meanwhile, British cricket officials unanimously agreed that a projected tour of England by the South African cricket team should go on as planned despite the threat of strong opposition from anti-apartheid demonstrators.

Horsemen Say Tax Bill Can Kill Racing in U.S.

By Fred Feldkamp

WASHINGTON, Dec. 11.—"It will sound the death knell of thoroughbred racing," said John D. Schapiro, president of the U.S. Thoroughbred Racing Association and president of Laurel Park racetrack.

"It will mark the end of racing as we know it," said Daniel Wildenstein, the art dealer of New York and Paris and proprietor of one of the largest, and most promising, racing stables in France.

They were referring to the future of horse racing if the tax-reform bill in its present version should become law.

Briefly, the bill—as it now stands—sharply restricts the deduction for tax purposes of legitimate expenses incurred in the operation of a racing stable. This would strike immediately at those owners with income from other sources who operate racing stables as a hobby and deduct their expenses in their tax return.

Breeding Too Expensive

It would also mean that operating a breeding farm would be a far too expensive luxury for most horsemen—even the very wealthy—to afford. And if the breeding farms are dealt a death blow, it isn't difficult to deduce what will happen to the quality, and quantity, of thoroughbred racing stock.

"The day of high prices for stallions and yearlings is over," said Schapiro, glumly.

Wildenstein enlarged on the international ramifications of the bill, if it becomes law here. "It would be like a chain of atomic bombs going off. Naturally, with the U.S. market knocked out, for the sale of top horses as stallions or mares, the effects will be felt in shock waves all over the world. "It could very well be that we'd have racing only a few days a week, with very small fields, and without the quality of horses we have today," he added.

Wildenstein, whose five-year plan for building a top racing stable in France is already succeeding, is very uncertain about the future. His stable, with 120 horses in training, had 67 winners in France this year and finished in the money 40 percent of the time in several hundred races contested.

Schapiro, who originated and presides over the Washington International each year at his Laurel, Md., course, was quick to point out a paradox.

States' Rights

"Here is the federal government trying to put the large stable owner out of business, while—at this moment—the states are more and more eager for the taxes they amass from the betting at the tracks."

Pennsylvania has legalized thoroughbred racing this year and other states, which have not had racing up to now, are casting longing eyes at neighboring states that are benefiting to the extent of very tidy sums from thoroughbred racing.

With Pennsylvania now operating, on an improvised strip at a harness-racing establishment called Liberty Bell, near Philadelphia, for the moment there is an overlapping complex of tracks competing for the bettor's $2 all along the East Coast. There are plans for the construction of a multi-million-dollar track for thoroughbred racing in Bucks County, not far from Liberty Bell—hopefully in two years.

And most, if not all, of the East Coast tracks are having their meetings extended. In the old days, not too long ago, the inveterate railbird would leave New York after the end of racing there in early November and migrate south to Bowie, Md., and then on to Florida. Now Aqueduct, in New York, functions until mid-December, and Liberty Bell will feature thoroughbred racing until Jan. 31.

Thus Maryland and Florida can no longer count on the New York-New Jersey-Pennsylvania racing devotees in large numbers.

The proliferation of tracks also includes New Jersey, which has Garden State, near Philadelphia, Atlantic City and Monmouth alternating; Delaware now has, in addition to Delaware Park at Stanton, the new Dover Downs. Maryland still goes with Bowie, Pimlico and Laurel, on virtually a year-round basis. Laurel closes on Jan. 3 and Bowie picks up the baton on Jan. 5.

Already there are not enough horses to go around. If the tax-reform bill succeeds in putting most of the big owners out of business, some of these tracks could end up like Virginia City, covered with cobwebs.

10 Gifts for a Man

By Russell Baker

WASHINGTON.—Gift suggestions for that man on your list:

1.—Give him an irresistible mechanical robot named "Milton" which will put children to bed at the precise moment of his choosing. "Milton" should be, ideally, no bigger than a mature gorilla; its grasp should be authoritative, but not so rough that it bruises young flesh in performance of its nightly duties. "Milton's" disposition should be such that no child will ever say a second time, "I don't want to go to bed yet, Daddy."

2.—How about a necktie that leaps off his lap during dressy dinners and spills gravy all over his spoon?

3.—And why not—for the man who has been defeated by parking lot attendants—a small stallion to be kept under the driver's seat? The stallion's reflexes should be conditioned so that whenever he hears the car tires scream or a fender groan in the parking lot, he will jump out from under the seat, kick the attendant through the windshield and race home. When the car owner arrives to collect his car from the garage, the broken windshield will caution him to look for ruined tires or dented fenders, thus making it easier for him to collect damages from the parking company.

* * *

4.—We are all being buried under junk mail. If your man is no exception, try giving him a mail shoot. This clever device is a mail slot with six inches of shotgun barrel protruding toward the mailman. Lift the slot to insert mail and the voice of Clyde Barrow (recorded, of course, except in deluxe models) declares, "delivery of junk mail through this slot automatically fires both barrels of this shotgun."

5.—All the foregoing suggestions seem a bit violent, don't they? Especially for this season of peace on earth. That's because we Americans have always been a violent people. (And a good thing too; Geronimo was no flower child). Still, man does not live by violence alone, so why not give him something to enrich those leisure hours when he wants to reflect, contemplate and meditate? A four-record set of "The Ten Greatest Riots of the 1960's" in brilliant stereo will give him many sentimental hours as he recaptures the sounds and moods of this unusually exciting decade.

6.—Is he a political animal? Is Spiro his hero? If so, give him a priceless new book ("4001 Model Angry Letters") that will make writing an outraged letter to his favorite commentator so easy that everybody will want to do it. Choice of models ranges from the blunt, regular-fellow angry letter ("Dear rat fink") to the coolly acid put-down. ("Not all of us, of course, can live in an ivory tower.")

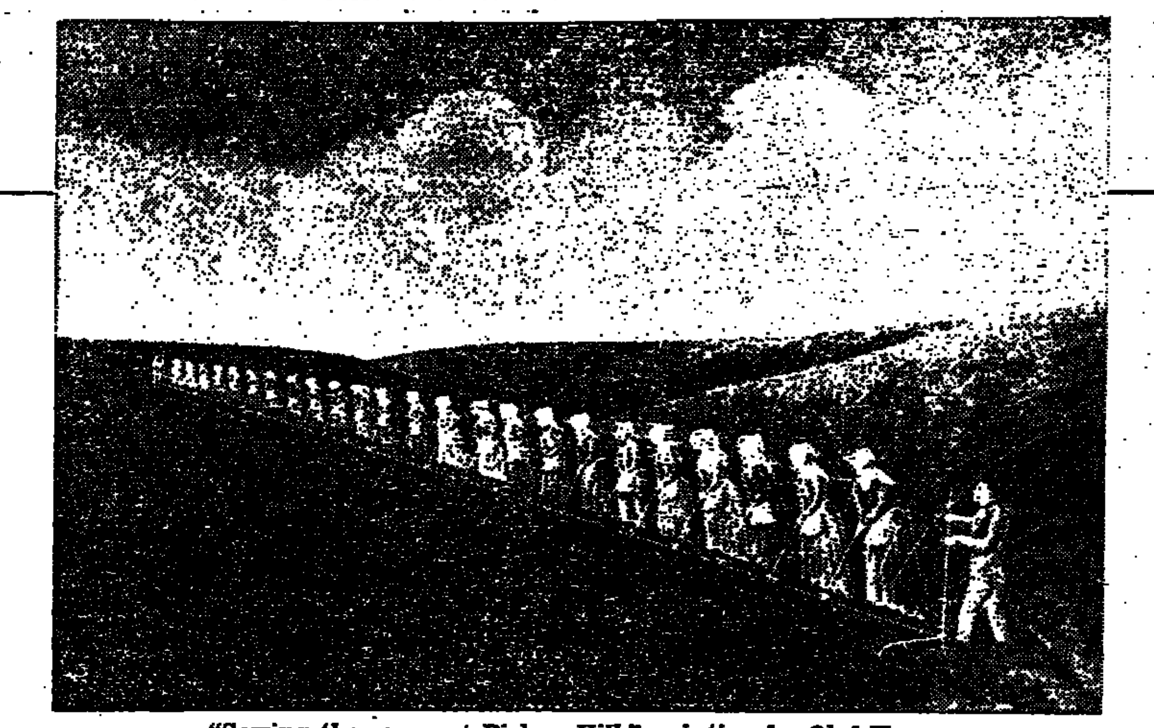

7.—Not all of us can, in fact, live in an ivory tower, but wouldn't it be fun to try? If your man has everything else, why not put an ivory tower under his tree this Christmas? If an ivory tower sufficiently commodious to make him feel like a rajah seems too expensive, you can always give him a porcelain tower, and if he doesn't want to live in it, it can always be converted into a kitchen sink.

* * *

8.—Give him a telephone that never rings except for the announcement of good news. If the telephone company refuses to install such a phone, give him a series of telephone calls delivering a piece of good news on each of the 12 days of Christmas. (Example: "congratulations, sir, we have decided not to disturb your dinner with a sales pitch about Florida real estate." "Good evening, sir, and great news! You have not been selected from among thousands in your neighborhood to have a special set of four encyclopedias in your living room," etc.)

9.—Is he overwhelmed—aren't all of us—with reading material absolutely essential to remaining a well-informed citizen? Well, then, give him subscriptions to Collier's, The Saturday Evening Post or Liberty.

10.—If he is so blessed that he has all these things, give him a kiss, have "Milton" put the children to bed, turn the light down low and then—sweetest gift of all—tell him that this year you'll do all the Christmas shopping.

"Sowing the crops at Bishop Hill," painting by Olof Krans.

19th-Century America in Swedish Eyes

By Wilfrid Fleisher

STOCKHOLM.—Olof Krans was a boy of 12 when he emigrated with his family in 1850 to the United States, where they joined a Swedish colony at Bishop Hill, Ill., 150 miles west of Chicago. The colony had been established four years earlier by the religious fanatic Erik Jansson, branded in his native land as a heretic.

Bishop Hill was named after Jansson's birthplace in central Sweden, where a small parish still bears the name and where Jansson is remembered as a "rugged pioneer."

The Jansson colony of 1,200 emigrants was a collective farm where all worked for the benefit of all and no individual owned any property. The emigrants pooled their resources before leaving their homeland and everything went into Jansson's coffers.

Young Krans became an ox-boy on the farm and later turned to painting and decorating buildings in the nearby town of Galva. Years passed and Krans turned to art, recreating the scenes of his childhood and doing portraits of some of the prominent colonists. His pictures, now on view at the Historical Museum in Stockholm, provide a pictorial chronicle of one of the earliest and largest groups of Swedish emigrants to settle in the American Midwest.

The collection of 12 paintings was painstakingly assembled by Olov Isaksson, a director of the museum, and an authority on Swedish emigration to the United States. The paintings are on loan from the State of Illinois, the Chicago Historical Society, and from private American collections.

Krans's memory was remarkably accurate and his detailed pictures are now being used to help restore the Jansson colony as a national memorial park and tourist attraction. Two of the 18 buildings—the church and the post office—have so far been restored, using Krans's paintings, and the hotel, which was an important stopover on the coach trail to the Far West, is next on the list.

At first, the colony prospered. At its peak, there were 11,000 acres of land, then valued at $720,000 and 1,170 head of livestock and cattle. Jansson administered the farm with an iron, puritanical hand, but prosperity came to an abrupt end when he was shot and killed in a courtroom brawl. His successors speculated and ran the colony into debt. It was dissolved after 15 years of existence.

At the start of the American Civil War, there were 1,400 inhabitants at Bishop Hill. A number of them, including Krans, took part on the side of the North. Today, there are only a few hundred villagers left, almost all descended from Jansson. One of the paintings is a proud self-portrait of Krans as a sergeant in the Union Army.

The Krans pictures tell the emigrant story from start to finish. There is a rowboat, setting out from the Swedish shore, with a desperate handful of emigrants and "Bishop" Jansson, standing in their midst, resolutely looking ahead to the "promised" land. The background is so typical, with the church and its steeple, huddled on the rocks, and the surrounding hills sloping down to the water's edge, that it could as well be a picture of the Swedish landscape of today.

But the artist's main contributions are the paintings that depict what many of the emigrants called "the land of milk and honey" in which they came to settle. It was a lush contrast from the rocky, barren soil they left behind. Krans shows the emigrants at work in the fields under sunny skies, sowing the crops and reaping the harvest with a mechanical precision and an almost military discipline that ruled in Jansson's colony and seemed to apply equally to man and beast.

Krans painted the primitive town, as it grew, with the faithfulness of a photographer. He may not have been a great artist, but he painted with the deep feeling of one who has experienced it all and on whom it left an imprint.

There is also a picture of the cemetery at Bishop Hill, where many of the emigrants are buried. It is a simple painting, with a dozen white tombstones around a plain cenotaph, under the usual sunny sky. Hundreds died on the way in overcrowded ships and in shipwrecks. Others died on the farm, with little else to rely upon than their faith in the healing powers of "prophet" Jansson.

The exhibition, which was opened by King Gustav VI Adolf, and largely made possible by a personal donation from the King, will continue until January 11, when it will go on tour in Sweden before winding up in Bishop Hill, Ill., in the autumn of 1970.

PEOPLE:

Wife Says Dean Ma[rtin] Asks for Divorce

Dean Martin

The wife of singer-actor Dean Martin has announced in Hollywood the "apparent end" of their marriage. Mrs. Martin said "my husband informed me several weeks ago that he had met and fallen in love with someone, and he has asked me for a divorce." She made her statement through an attorney. Martin, 52, was not available for comment, and no one seemed to know the identity of the woman he loves. Mrs. Martin, 47, said her decision to divorce her husband was "painfully difficult" and continued, "my deep concern at present is for our children." The Martins were married in 1949, and separated briefly in 1955. They have three children, while he has four other children by a previous marriage.

* * *

It was a bad day for runaway prisoner Ivan Lewis. After successfully breaking out of jail, he crept aboard a train he thought would take him to London and freedom. It took him back to the Isle of Sheppey, England, where he had escaped from Eastchurch Prison. The 21-year-old convict gave up.

* * *

Oreste Garberini and Wilma Sinabaldi got their marriage off to a flying start this week. Garberini is a 26-year-old airline mechanic in Rome, and in keeping with his love of planes he wanted to be married aboard one. Church authorities refused to grant him permission, so he and his bride were married in the chapel at Rome Airport. After the wedding he chartered a DC-9 jet and held a reception aboard it for 85 persons while the flower-decked plane flew from Rome to Bari.

* * *

A working, guitar-playing princess was guest of honor Wednesday night at a benefit ball to provide music therapy for veterans' hospitals. Princess Isabella of Italy, daughter of the Duke of Ancona and cousin of ex-King Umberto II, provided the royal touch for the 15th annual Imperial Ball in New York, reigning (in the Hotel Plaza's carnation-decorated ballroom) over 400 socialites who paid $60 each to veterans' charities. Princess Isabella has given up her job in public relations to work for an air freight company in Rome. She is on her way this week to Brazil to learn coffee culture at a large plantation owned by her parents. The Duke and D[uchess] of Ancona went into s[elf-im]posed exile in Brazil af[ter a] plebiscite ended the mo[narchy] in Italy in 1946.

* * *

A 17-year-old student [from] Singapore, Yong Tan, exp[lained] to the British judge tha[t she] only wanted to "see the [criminal] side of the law to s[upplement] my studies." That, she was the reason she had lifted a skirt, a jumpe[r and] a pair of slacks from a [West] End store in London. The [judge] fined her $12 and asked, [" ...] you find it an agreeable [expe]rience?"

* * *

According to Patrick [...] 67, of Leicester, Englan[d, ...] jailhouse is the best pl[ace in] the world to spend the ho[lidays]. That, he told the judge, [is] why he has declared h[imself] without fixed address— [and] can be picked up for "ma[licious] mischief" and spend Chr[istmas] in the jug. As it turn[s out,] Lyons will also spend [New] Year's Day and Valentin[e's Day] there, to. He got a three[-month] sentence.

* * *

An American Maryknol[l priest] who received Vatican [permis]sion to leave his order [married] his Peruvian secretary, [it is be]lieved to have been n[...] secretly this week. [...] sources close to the Re[v. ...] McLellan, 53, of Denver, [Colo]rado, said they underst[ood he] married Miss Ada Chiri[...] in a ceremony in Lima. [There] was no immediate confir[mation] available of the repor[t ...] those close to the ex-pries[t ...] apparently promised hi[m] secrecy. Mr. McLellan is [well] known in Peru as a pio[neer of] financial cooperatives.
